

Get Your Guide to Advocacy:

ACOG's Legislative Primer: Your Practice, Your Priorities, Your Future

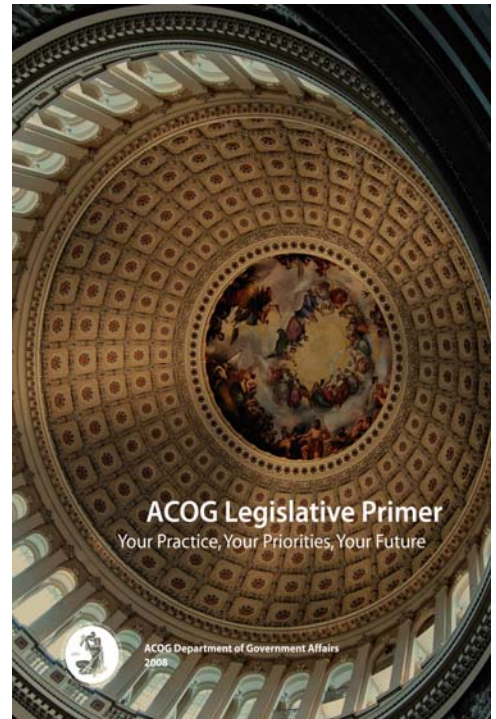

Order Your Free Copy Today!

ACOG has a new resource for Fellows and Junior Fellows: the first edition of the ACOG *Legislative Primer: Your Practice, Your Priorities, Your Future*.

The free guide explains how to get involved in ACOG advocacy, and includes easy-to-read summaries and talking points on ACOG's major legislative issues.

"Having your voice heard in Washington, DC, and in your state capitals is an important component of medical practice today," noted **ACOG President and Chair of ACOG's Government Relations Committee Kenneth L. Noller, MD, MS**, in the book's introduction.

The Primer is a useful tool for ACOG members new to advocacy, and for those with extensive experience. Readers can use the Primer to be as active as they wish, from making an occasional phone call to getting immersed in legislative issues.

Read about:

- ***U.S. Congress: The Basics*** -- *Who's who, and how a bill becomes law;*
- ***Advocacy at ACOG*** -- *How ACOG sets its agenda and influences public policy;*
- ***How to Get Involved*** – *Easy ways to become an advocate using ACOG resources; and*
- ***Issues Affecting Ob-Gyns*** -- *A point-in-time summary of top legislative issues including medical liability reform, Medicare physician payment, quality health care, ob-gyn ultrasound, women's health research, graduate medical education, and the uninsured.*
