

# ACOG PRACTICE BULLETINS

## LIST OF TITLES — DECEMBER 2009

Practice Bulletins provide obstetricians and gynecologists with current information on established techniques and clinical management guidelines. ACOG continuously surveys the field for advances to be incorporated in these series and monitors existing bulletins to ensure they are current. Individual bulletins are withdrawn from and added to the series on a continuing basis and reaffirmed periodically.

Open access to lists of titles, published monthly by the American College of Obstetricians and Gynecologists, is available as follows:
