“Focus on American Indian / Alaska Native Women”

Best Practices in Women’s Health: Focus on the American Indian/Alaska Native Woman is a multidisciplinary course that provides practical, evidence-based approaches to the recognition, management, consultation and referral of health problems facing AI/AN women. The course is designed for IHS, Tribal and Urban (I/T/U) providers and nurses. Physicians, clinical nurses, nurse practitioners, nurse midwives, and physician assistants will have the opportunity to attend a variety of lectures and interactive workshops with a focus on behavioral health issues on August 10th and common women’s health conditions on August 11th. Courses are taught by a faculty that has expertise in providing health care to women and children in I/T/U health care facilities.

The Advanced Life Support in Obstetrics (ALSO) certification course is offered to promote preparation for childbirth emergencies. This team-based training provides excellent hands-on learning. ALSO lectures and skills labs will take place on August 12 and 13. The ALSO lectures and workshops are open only to those who wish to pay the additional fee for the Saturday and Sunday sessions. Only those who take and pass the written and hands-on exams will be certified.

Preliminary Schedule:

Thursday, August 10

7:30 AM – 8:15 AM    Registration
8:15 AM – 10:15 AM    Addiction Medicine/Buprenorphine Training Part 1
