5th International Indigenous Women's Health Meeting

Traditional, Holistic, & Evidence-Informed Approaches to Care

March 21–23, 2018
Sheraton Albuquerque Uptown
5th International Indigenous Women's Health Meeting
Traditional, Holistic, & Evidence-Informed Approaches to Care

The International Indigenous Women’s Health Meeting, held every two years, focuses on innovative clinical care models and community-based public health approaches for women and their families in First Nations, Inuit, Métis, American Indian and Alaska Native and other Indigenous communities. During the meeting, participants will further strengthen their knowledge about prevalent health problems facing Indigenous women and acquire practical skills. Opportunities to share knowledge and support one another’s efforts, to network, and to develop partnerships are built into the program. Topics include: rural maternity safety, trauma-informed care, maternal substance use and cultural safety. Optional hands-on sessions are available for clinical skills building and safety planning.

Program

Objectives/Outcomes
At the conclusion of this conference, the participant will be able to:

- Employ enhanced systems of culturally-informed care to advance the health status of Indigenous women.
- Examine strategies and unique solutions to meet the emerging health needs of women in Indigenous populations.
- Implement evidence-informed practices that enhance the health care team’s clinical skills in providing quality women’s health and maternity care to Indigenous women.
- Develop partnerships to increase collaboration and information exchange between those working in Indigenous women’s health in both rural and urban settings internationally.
- Identify opportunities to improve capacity building and advocacy efforts in maternity and women’s health care.

Wednesday, March 21, 2018

7:00am-8:00am
Registration and Breakfast

ACCME Accreditation

The American College of Obstetricians and Gynecologists is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

**AMA PRA Category 1 Credit(s)™**

The American College of Obstetricians and Gynecologists designates this live activity for a maximum of 17 AMA PRA Category 1 Credits.™ Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**College Cognate Credit(s)**

The American College of Obstetricians and Gynecologists designates this live activity for a maximum of 17 Category 1 College Cognate Credits. The College has a reciprocity agreement with the AMA that allows AMA PRA Category 1 Credits™ to be equivalent to College Cognate Credits.

**Disclosure of Faculty and Industry Relationships**

In accordance with College policy, all faculty and planning committee members have signed a conflict of interest statement in which they have disclosed any financial interests or other relationships with industry relative to topics they will discuss at this program. At the beginning of the program, faculty members are required to disclose any such information to participants. Such disclosure allows you to evaluate better the objectivity of the information presented in lectures. Please report on your evaluation form any undisclosed conflict of interest you perceive.

The Indian Health Service Clinical Support Center is accredited with distinction as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. CNE credits to be provided pending approval of application.

**Faculty Disclosure Statement:** As a provider accredited by ACCME, ANCC, and ACPE, the IHS Clinical Support Center must ensure balance, independence, objectivity, and scientific rigor in its educational activities. Course directors/coordinators, planning committee members, faculty, reviewers and all others who are in a position to control the content of this educational activity are required to disclose all relevant financial relationships with any commercial interest related to the subject matter of the educational activity. Safeguards against commercial bias have been put in place. Faculty will also disclose any off-label and/or investigational use of pharmaceuticals or instructs discusses in their presentation. All those who are in a position to control the content of this educational activity have completed the disclosure process and have indicated that they do not have any significant financial relationships or affiliations with any manufacturers or commercial products to disclose except for two speakers:

Dr. Tony Ogburn has disclosed that he is a Nexplanon Trainer for MERCK/Schering Plough. He does not receive any financial reimbursement for this service.

Michelle Iandiorio, MD disclosed that her outpatient clinic organization has received grant support from Gilead Sciences and Janssen Research and Development for PrEP clinical trials for which she serves as an investigator or sub-investigator.

No commercial interest support was obtained to fund this activity.
