

## **Pregnancy and Lactation Labeling Rule: Implications for Clinical Practice**

Tuesday, April 18

11:00 am EDT/10:00 am CDT/9:00 am MDT/8:00 am PDT

ACOG invites you to attend a complimentary webinar, featuring two ACOG representatives, that will review the U.S. Food and Drug Administration's Pregnancy and Lactation Labeling Rule, its current status, and implementation plans. Clinicians, including obstetric providers, will review what the label changes mean for day to day practice and present a variety of strategies for patient engagement and communication. Alison S. Bryant Mantha, MD, MPH, an obstetrician-gynecologist and maternal-fetal subspecialist from Boston, Massachusetts, and Debra Hawks, MPH, ACOG's Senior Director of Practice Activities, Obstetrics and Immunizations, will present on behalf of ACOG.

The AAAAI Vaccines and Medications in Pregnancy Surveillance System (VAMPSS) team will also describe one way data on medication safety during pregnancy and lactation is being collected and how that will be included in the new label.
