EMERGENCIES IN CLINICAL OBSTETRICS COURSE (ECO) $20,000

Emergencies in Clinical Obstetrics (ECO) course is an eight-hour evidence-based course taught by ACOG Fellows and focused on decreasing instances of accidental maternal/fetal injury and death. It is comprised of both didactic and simulations instruction. This course offers four CME credits and fulfills ABOG MOC Part IV requirements. As of June 1, 2018, ACOG counts 65 Trainers at 22 sites and 657 participants trained.

CONTACT: Stevie Cline, scline@acog.org, 202.863.2493

Surgical Skills

ADVANCED SURGICAL SIMULATION AND ENDOSCOPIC SURGICAL SIMULATION (ASSESS) COURSE $20,000

The ACOG ASSESS course uses simulation training to provide residents with an opportunity to practice new, research-based techniques in laparoscopic surgery while more seasoned clinicians review procedures and best practices.

The course reinforces the importance of simulation training in gynecologic surgery and provides self-assessment skills on various gynecologic surgical procedures.

CONTACT: Stevie Cline, scline@acog.org, 202.863.2493

VAGINAL HYSTERECTOMY SURGICAL TRAINING COURSES $50,000

ACOG hosts these hands-on “train the trainer” vaginal hysterectomy courses for key residency program faculty champions with an emphasis on current technologies and techniques. These two-day courses are designed to increase confidence in both the performing and teaching of vaginal hysterectomy. Champions use the skills they acquire to teach and mentor residents and increase the percentage of benign hysterectomies performed vaginally.

Support covers management and logistical expenses including lab services and equipment, cadaver fees, marketing and design fees and registration. Funder(s) will have access to reported project outcomes data and will be recognized on all course related materials as appropriate.

ACOG is committed to leveraging its expertise and the commitment of U.S. ob-gyns to support women’s health programs around the world. ACOG’s Office of Global Women’s Health (OGWH) works internationally to increase women’s access to quality health care by building provider skills, supporting implementation of high impact interventions and scaling proven solutions to decrease maternal mortality and morbidity.

OGWH utilizes ACOG’s clinical and educational standards and the unique expertise of our Fellows to:

• Catalyze multidisciplinary team-based care and data-driven quality improvement in facilities
• Expand pre- and in-service training in surgical skills and operative obstetrics to address the lack of access to safe surgery and strengthen surgical infrastructure
• Strengthen capacities of professional ob-gyn associations and facilitate collaboration with ministries of health, women’s health care providers, universities and local partners
• Enhance medical education and residency training

Young Professionals Opportunities

The Council on Resident Education in Obstetrics and Gynecology (CREOG)

CREOG Collaborative  $20,000

Be at the forefront of maintaining excellence throughout residency! This opportunity directly supports CREOG in its efforts to provide quality programs and resources to enable and empower program directors, coordinators and residents to become the next generation of leaders and innovators. From creating and implementing new tools for program directors and coordinators to convening meetings that highlight resident education, CREOG provides accredited ob-gyn residency programs with the support and materials necessary for success.

The CREOG Collaborative is limited to five participating organizations each year. Your unrestricted educational grant will be recognized through:

- Program recognition during the 2019 CREOG Educational Retreat
- Advance registration list for the 2019 CREOG Educational Retreat
- Logo on sponsors' sign at the 2019 CREOG Educational Retreat, School for Program Directors and Resident Workshops
- Program recognition during the 2019 CREOG/APGO Annual Meeting
- Logo on sponsorship sign displayed in the CREOG booth at the 2019 CREOG/APGO Annual Meeting

ACOG JUNIOR FELLOW PHYSICIAN WELLNESS WEEK $5,000 to $20,000*

Help ACOG build personal wellness awareness among future leaders in the obstetrics and gynecology specialty at the 3rd Annual National ACOG Junior Fellow Physician Wellness Week, February 4-8, 2019.

During Wellness Week, training programs nationwide raise awareness of the importance of wellness within our specialty. Programs focus their daily activities around the following wellness pillars – physical, environmental, spiritual/mindful, emotional/intellectual and social. The enthusiasm and excitement of participants from the last two years have been astounding and resulted in thousands of posts on various social media outlets from more than 50 different residency programs! Programs with the most innovative wellness activities will be announced at the CREOG/APGO meeting in March 2019.

QUALITY IMPROVEMENT OPPORTUNITIES

MATERNAL QUALITY IMPROVEMENT TEAM TRAINING $75,000

Hosted by ACOG, these one-day training sessions can be held as a preconference at up to three ACOG Annual District Meetings. Each session provides ob-gyns with the knowledge and skills to identify and utilize available metrics to support and evaluate maternal quality improvement initiatives within their facilities.

Using examples and lessons learned from successful perinatal collaboratives, these trainings will be followed by three semi-monthly group calls for peer-to-peer support. The objective is to improve and sustain quality and safety change.

CONTACT: Stevie Cline, scline@acog.org, 202.863.2493

POSTPARTUM TOOLKIT $50,000 or $20,000

DEVELOPMENT $50,000

ACOG’S Presidential Task Force on Redefining the Postpartum Visit will create a toolkit to help providers implement more holistic postpartum care. The toolkit will contain a more robust and field-tested postpartum checklist for providers to better engage postpartum women and will provide patient resources.

DISTRIBUTION $20,000

Support the complimentary distribution of the toolkit to all residency programs. Each residency program will receive access codes for residents’ individual logins and the ability to download the toolkit for educational purposes.

COUNCIL ON PATIENT SAFETY IN WOMEN’S HEALTH CARE safe health care for every woman
ABNORMAL UTERINE BLEEDING/CHRONIC PAIN APP $250,000

This app will be made available to patients with abnormal uterine bleeding and/or chronic pelvic pain and complements ACOG’s pain and bleeding modules. The app includes a menstrual bleeding tracker so that patients may input information including symptoms like pain.

Upgrades to this application may eventually include patient tools related to infertility, obesity, immunizations, contraception, and more. Ultimately, this app will improve clinical workflow for health care providers by providing objective, long-term data captured by the patients that can be quickly analyzed and would be untainted by recall bias.

CONTACT: Stevie Cline, scline@acog.org, 202.863.2493

BENIGN DISEASE Hysterectomy REGISTRY $100,000+

ACOG will develop a registry through the collection and analysis of data on patients with benign disease undergoing hysterectomy. Registry data will be used to inform the least invasive and most cost-effective approach of hysterectomy under specific clinical circumstances to include morbid obesity, nulliparity, enlarged uterus and multiple previous cesarean deliveries.

CONTACT: Stevie Cline, scline@acog.org, 202.863.2493

ACOG CODING FELLOWSHIP $25,000

This opportunity directly supports coding education for ACOG Fellows and their staff by providing the tools to maintain financially viable practices through education about correct coding and billing practices as well as fundamentals on the business side of medicine.

Your support provides:

- Three Committee on Health Economics and Coding (CHEC) fellowships
- Coding Workshop course registration scholarships for 20 resident attendees
- Internet access at eight to ten Coding Workshops to enable course interactivity and for real-time knowledge verification

COMPREHENSIVE WOMEN’S MEDICAL RECORD MODULE DEVELOPMENT

Data and analytics can transform the delivery of health care – but the promise of this has gone primarily unrealized in daily practice. ACOG is leading a technology revolution in women’s health by developing tools and applications to help providers efficiently and effectively gather obstetric and gynecologic medical data at the point of care. These provider-focused applications will enable the capture of clinical data in a complete and consistent manner, improvement in the quality of collected data and the performance measurement derived from them.

ACOG has partnered with Dorsata, an EHR integration application developer, to develop the ACOG Comprehensive Women’s Medical Record. Following the success of the ACOG Prenatal Record, ACOG is developing a set of provider-focused gynecologic clinical modules, compatible with prominent EHRs, that incorporate ACOG’s evidence-based clinical guidelines, support point-of-care decision making and capture structured clinical data in a cloud-based platform.

The first two of these modules focused on prenatal care and the well-woman clinical encounter. Supplemental modules will include, but are not limited to:

• Abnormal Uterine Bleeding
• Pelvic Pain
• Reproductive Health
• Genetic Testing and Precision Medicine
• Infertility
• Urogynecology
• Menopause
