

GE INDIA

GE Healthcare Institute & ACOG Collaboration in India

In December 2017, ACOG began a collaboration with the Wipro GE Healthcare (WGE) to promote medical education through skill enhancement courses in women's healthcare.

This collaboration helps facilitate the access of training opportunities throughout India. GE Healthcare education, with the comprehensive training plan design, aims to provide equipment users (radiographers), biomedical engineers and clinicians with opportunities to gain the knowledge and skills to optimize equipment usage, clinical practice and patient care.

2018 Highlights & upcoming activities in 2019

839 eModules

downloaded in India via the GE platform.

Scheduled training in India

will take place in April, August, and November 2019.
