

---

February 2016

At this time, ACOG does not have a specialty registry that EPs can utilize to meet attestation requirements for MU Stage 2 (Objective 10: Public Health, Specialized Registry Reporting).

The list of the CMS specialized registries can be found here:

<https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/Downloads/2015QCDRPosting.pdf>

One registry that might be appropriate for some obstetrics and gynecology practices is the American Urogynecologic Society Pelvic Floor Disorder Registry (AUGS PFDR), found on page 14 of the CMS specialized registries list.
