District XII Young Physician Update

District XII held its ADM on August 10-12th at the Loews Hotel on Miami Beach, Florida.

In the District Council meeting, we discussed ways in which to better engage the Young Physician (YP) membership. We spoke of some of the logistical challenges in getting young physicians involved.

Future ideas include having a YP Council with section representatives to mimic the structure of the Junior Fellow (JF) program. In order to recruit these representatives, it was suggested to reach out to former JF leaders now YP and see if we could “re-engage” them in this council. Ideally, these members would participate in both District and National events such as the CLC and state advocacy events as well as possible committees.

We are in preparation to include a YP happy hour at the next ACOG ADM in August 2019 in Orlando, Florida.

Respectfully submitted,

Farah Sultan Chuong, MD
