ACM GOES GREEN!

Syllabus ▪ Now Electronic!

The College is implementing a new process for Annual Clinical Meeting (ACM) syllabi. Printed syllabi will be provided to a limited number of sessions. As a paid registrant you will be able to go online to download course material. We are excited about this new method that helps support the College’s efforts in going ‘green’ and provides you flexibility and expanded access to course material at your convenience.

Evaluations ▪ Now Electronic!

Online evaluations are essential for planning future College Programs. Also, online evaluations support the College’s efforts in going green and providing Annual Clinical Meeting participants with the flexibility and expanded access to complete the evaluation and print a certificate of attendance at their convenience. As a participant, you will be able to 1) complete the evaluation online and 2) print your certificate of attendance online. There will be a designated computer station at the ACM for completing online evaluations. Participants will also have the option of completing online evaluations at home. Participants may begin completing online evaluations at the conclusion of the first course attended. The online evaluations will remain available until 30 days after the ACM.

## What's New at the ACM in 2012

- More "user friendly" course scheduling
- Practice Management and EMR for physicians and their office managers
- Reorganized poster sessions
- President's Program on Preeclampsia
- MOC - Part III - Sample Written Exams at the ACOG Booth
- Inaugural Hale Lecture
- Inaugural Jim and Midge Breeden Lecture
- Practice managers and office staff are being encouraged to attend the ACM for the first time, with 060 courses on health information technology and the future of practice (SA607 and SU606)
- Special Session on Maternal and Child Mortality featuring Mrs. Christy Turlington-Burns and Mrs. Tonya Lewis Lee
It is indeed a pleasure to invite you to the 60th Annual Clinical Meeting of the American Congress and College of Obstetricians and Gynecologists. San Diego is a beautiful and fun place to meet, known for its wonderful weather and beautiful surroundings. Our meeting is held once again at the San Diego Convention Center, a site that promises to be a wonderful venue for the tremendous program that Christopher Zahn and the other members of the Committee on Scientific Program have created for our educational enjoyment. The postgraduate courses and the main program have been designed to meet the needs of our members who have told us the areas and topics of interest they would like presented. The President’s Program on Monday will focus on the most important medical complication of pregnancy—preeclampsia/eclampsia—which affects our obstetrical patients and causes them a great deal of morbidity and mortality. Presented at the meeting will be the inaugural The Hale Lecture. This lecture was established to recognize Dr. Hale’s outstanding leadership, commitment to our specialty, and dedication to women’s health care.

Not only is this meeting a time to participate in terrific educational offerings, but it is also an opportunity to get reacquainted with colleagues with whom we trained years ago. From the welcome reception on Sunday evening to the Convocation on Wednesday when new Fellows are sworn in, and the new President, James Breeden of Carson City, Nevada, will deliver his presidential address, there are many opportunities to learn, see friends, and colleagues, and enjoy the city of San Diego. On Tuesday evening, attendees are invited to the President’s Party which will be a delightful evening full of fun for the whole family at the San Diego Air and Space Museum. This museum was chosen for its appeal to all ages, Fellows, and families.

I am looking forward to seeing you in May in beautiful San Diego.

James N. Martin Jr, MD, FACOG  
President

Dr. Martin is the author of more than 500 scientific publications and communications, many of which address issues related to preeclampsia/eclampsia and atypical forms of this disease such as HELLP syndrome. The Preeclampsia Foundation presented Dr. Martin with its Hope Award in 2009 for lifetime achievement in preeclampsia research. He is a fellow of both the American Heart Association and the American Gynecological and Obstetrical Society. He is past president of the North American Society for the Study of Hypertension in Pregnancy and the Society for Maternal-Fetal Medicine.

Dr. Martin has been an ACOG Fellow for 29 years. He is a former secretary of ACOG and chair of District VII (from Kansas to Mexico). He has also served on a number of ACOG Committees and Task Forces, including the Committees on Obstetric Practice, Government Relations and Outreach, and Nominations.

Dr. Martin completed his undergraduate work at Wake Forest University in Winston-Salem, North Carolina, and his medical degree at The University of North Carolina School of Medicine in Chapel Hill. His research in hypertensive disorders of pregnancy began during his ob-gyn residency at the North Carolina Memorial Hospital in Chapel Hill. He continued this research while completing fellowships with the World Health Organization at Karolinska Hospital in Stockholm, Sweden, and in maternal-fetal medicine at the Parkland Memorial Hospital, University of Texas Health Science Center, in Dallas.
On behalf of the Committee on Scientific Program, it is my great pleasure to invite you to attend the 60th Annual Clinical Meeting of the American College of Obstetricians and Gynecologists, which returns to the great city of San Diego. The meeting will be held May 5-9, 2012. San Diego is a fantastic host city, providing a superb environment for education, renewing old acquaintances, developing new ones, and enjoying the opportunities San Diego has to offer.

The Committee on Scientific Program has worked diligently over the last year to develop a program that highlights the most recent information regarding evidence-based medicine, techniques, procedures, and patient management; addresses clinical dilemmas and controversies; and tackles “hot topics” and issues facing the membership. To address these topics, an outstanding panel of faculty has been assembled, including national and international leaders in our field. This meeting will continue to expand on educational formats and venues to enhance learning and participation, including hands-on courses, interactive sessions, and small group learning, particularly evidenced in the “Lunch with the Experts” series. Of note, audience-response systems (ARS) have increasingly been incorporated in the educational sessions.

In direct response to feedback received from participants attending prior meetings, as well as input received via a survey of the membership, several modifications and improvements have been made for the 2012 meeting. The meeting schedule has been modified in order to maximize opportunities for participants to attend desired educational sessions. While simultaneous sessions offer a great number of topics to consider, overlapping sessions, particularly at different start and finish times, have at times made it difficult to attend various sessions or be present for an entire session. With this in mind, the Committee has aligned the schedules of educational sessions to allow participants a greater ability to attend desired events. Registration has also been modified in order to simplify the process. While a greater number of courses and sessions are included in the general registration, it is imperative for attendees to still register for the courses so meeting planners can identify adequate room size, as well as identify appropriate continuing education credit. In response to membership input, educational sessions were planned to address such topics as practice management and electronic health records – issues that are unquestionably important in the current practice of medicine. The Committee certainly hopes these modifications improve the overall experience of those attending the Annual Clinical Meeting.

Details regarding topics covered during the meeting, as well as the knowledgeable faculty, are provided in the program; I encourage you to read through the program to see the breadth of issues to be addressed. The President’s Program will focus on the theme of Dr. Martin’s presidency – hypertensive diseases in pregnancy. Dr. Martin has developed a superlative panel to address this topic, including the view from a patient’s perspective. The “Symposia” address a wide range of topics, including global health, breast cancer screening, the effect of multiple gestation from a global viewpoint, fetal programming relative to disease development, and disparities in health outcomes. Following on Dr. Martin’s theme, a presentation on the history of hypertensive diseases in pregnancy will also be presented; the history of the various approaches to etiology, diagnosis, and treatment should be quite interesting. Additionally, the first presentation named in honor of Dr. Ralph Hale will be provided at the 2012 meeting. The ever-popular Live Telesurgery Session will continue the different “twist” initiated for the 2011 meeting, that of a live demonstration of pelvic surgical anatomy. The Clinical Seminars, “Brown Bag” Seminars, Interactive Sessions, and Current Issues Updates continue to address a broad range of important topics. The also-popular Film Festival offers education on new techniques, alternative surgical approaches, and patient-centered interactions related to challenging clinical situations. Scientific paper and poster presentations continue to be emphasized, with specific times devoted to the poster presentations for the meeting.

Of course, the meeting cannot be “all work”…. all are invited to the Welcome Reception on Sunday evening. The Party with the President promises to be an incredible event, to be held at the San Diego Air and Space Museum in Balboa Park. And of course, San Diego is a beautiful city with a multitude of activities in which to participate, and it’s hard to beat the weather…

In representing the Committee on Scientific Program, I hope you enjoy the meeting and all that it has to offer. I look forward to seeing you in San Diego!

Sincerely,

Christopher M. Zahn, MD, FACOG
SCHEDULE AT A GLANCE

SCIENTIFIC PROGRAM
All events will be held at the San Diego Convention Center unless otherwise noted.

Inclusion of any product, procedure, or method of practice in this program does not constitute endorsement by the American College of Obstetricians and Gynecologists.

Schedule of Events as of December 1, 2011.

FRIDAY, MAY 4
3:00 PM – 6:00 PM  Registration

SATURDAY, MAY 5
7:00 AM – 5:00 PM  Registration

8:15 AM - 5:00 PM
120 Postgraduate Courses, Two-Days (Saturday & Sunday)
  • SS01 – Colposcopy Update: Evaluation and Management of Lower Genital Tract Disease – 2012
  • SS02 – Advanced Surgery for Pelvic Floor Dysfunction and Benign Gynecology
  • SS03 – Mastering the Tools of Evidence for Practice

060 Postgraduate Courses (Saturday)
  • SA601 – Prevention, Recognition, and Management of Complications from Gynecologic Surgery
  • SA602 – Controversies in Perinatal Medicine: The Great Debates
  • SA603 – Best Practices in High-Risk Pregnancy
  • SA604 – Making Laparoscopic Hysterectomy Part of Your Practice: An Introduction, Review of the Evidence and Video Tutorial to Total Laparoscopic Hysterectomy and Laparoscopic Supracervical Hysterectomy
  • SS01 – Colposcopy Update: Evaluation and Management of Lower Genital Tract Disease – 2012
  • SS02 – Advanced Surgery for Pelvic Floor Dysfunction and Benign Gynecology
  • SS03 – Mastering the Tools of Evidence for Practice

060 Postgraduate Courses (Sunday Only)
  • SU601 – Coding and Documentation for the Obstetrician and Gynecologist
  • SU602 – Current Topics in Reproductive Endocrinology for the Clinician
  • SU603 – Practical Approaches to Common Obstetrical Dilemmas: Art and Evidence
  • SU604 – Menopause and Hormone Therapy: Reevaluating the Evidence and Looking Toward the Future
  • SU605 – Pearls and Pitfalls for Minimally Invasive Hysterectomy
  • SU606 - Women's Health Practice of the Future: Information and Tools for Success

Hands-On 060 Postgraduate Courses
  • HO03 – Hands-On Basic Obstetric Ultrasound—A Hands-on Experience
  • HO04 – Hands-On Laparoscopic Techniques in Advance Gynecologic Surgery
  • HO05 – Stopping the Leaks! Evaluation and Treatment of Fecal and Urinary Incontinence

SU301 – Recurrent First Trimester Pregnancy Loss: Explained and Unexplained
SU302 – Update in Gynecologic Oncology—and the Impact for the Practicing Gynecologists
SU303 – Medical Disorders During Pregnancy: Update 2012
SA304 – GOT ERROR?: Prevention and Management of Adverse Events

SUNDAY, MAY 6
7:00 AM – 5:00 PM  Registration
8:15 AM – 5:00 PM
120 Postgraduate Courses, 2-Day (Saturday & Sunday)
  • SS01 – Colposcopy Update: Evaluation and Management of Lower Genital Tract Disease – 2012
  • SS02 – Advanced Surgery for Pelvic Floor Dysfunction and Benign Gynecology
  • SS03 – Mastering the Tools of Evidence for Practice

060 Postgraduate Courses (Sunday Only)
  • SU601 – Coding and Documentation for the Obstetrician and Gynecologist
  • SU602 – Current Topics in Reproductive Endocrinology for the Clinician
  • SU603 – Practical Approaches to Common Obstetrical Dilemmas: Art and Evidence
  • SU604 – Menopause and Hormone Therapy: Reevaluating the Evidence and Looking Toward the Future
  • SU605 – Pearls and Pitfalls for Minimally Invasive Hysterectomy
  • SU606 - Women's Health Practice of the Future: Information and Tools for Success

Hands-On 060 Postgraduate Courses
  • HO03 – Hands-On Basic Obstetric Ultrasound—A Hands-on Experience
  • HO04 – Hands-On Laparoscopic Techniques in Advance Gynecologic Surgery
  • HO05 – Stopping the Leaks! Evaluation and Treatment of Fecal and Urinary Incontinence

SU301 – Sexuality and The Life Cycle
SU302 – PCOS – Comprehensive Work-Up and Management
SU303 - Intrapartum Fetal Heart Rate Monitoring: The Evolution of Consensus
SU304 - Taking the Lead in Patient Safety: Reducing Risks, Improving Outcomes
SU305 - New Insights into Breast Health: Management, Safety, and Medicolegal Considerations

8:45 AM – 12:00 PM
030 Postgraduate Courses
  • SU301 – Sexuality and The Life Cycle
  • SU302 – PCOS – Comprehensive Work-Up and Management
  • SU303 - Intrapartum Fetal Heart Rate Monitoring: The Evolution of Consensus
  • SU304 - Taking the Lead in Patient Safety: Reducing Risks, Improving Outcomes
  • SU305 - New Insights into Breast Health: Management, Safety, and Medicolegal Considerations

8:45 AM – 12:00 PM
030 Postgraduate Courses
  • SU301 – Sexuality and The Life Cycle
  • SU302 – PCOS – Comprehensive Work-Up and Management
  • SU303 - Intrapartum Fetal Heart Rate Monitoring: The Evolution of Consensus
  • SU304 - Taking the Lead in Patient Safety: Reducing Risks, Improving Outcomes
  • SU305 - New Insights into Breast Health: Management, Safety, and Medicolegal Considerations
10:00 AM – 3:00 PM
• Collaborative Action for Safe Mother’s Day - The Hilton San Diego Bayfront Hotel

1:00 PM – 6:00 PM
• Medical Student Workshop - The Hilton San Diego Bayfront Hotel

7:00 PM – 9:00 PM
• Welcome Reception - The Hilton San Diego Bayfront Hotel

MONDAY, MAY 7
7:00 AM – 5:00 PM Registration

8:15 AM – 8:45 AM
• Opening Ceremony - James N. Martin Jr, MD, Congress President

8:45 AM – 9:30 AM
• 1st Symposium/President’s Program: The Samuel A. Cosgrove Memorial Lecture: Preeclampsia: Past, Present, and Future

9:30 AM – 10:00 AM

10:00 AM – 10:30 AM
• The Jim and Midge Breeden Lecture: Patient Perspectives on Preeclampsia

10:00 AM – 12:00 PM
• Talking With Your Children About Sexuality - The Hilton San Diego Bayfront Hotel

10:30 AM – 5:00 PM Exhibits Open

10:45 AM – 11:45 AM
Clinical Seminars (CMAs)
• CMA01 – Preterm Birth: Best Practices for the Obstetrician
• CMA02 – Endometriosis Update
• CMA03 – Current Assessment and Treatment of Postmenopausal Osteoporosis
• CMA04 – LARC in 2012: Getting the Most from IUDs and Implants
• CMA05 – The Great Mimic of Presumed Gynecologic Pelvic Pain—Interstitial Cystitis and Myofascial Pain
• CMA06 – Managing Prolapse in the Frail and Elderly
• CMA07 – Anomalies Which Should Not be Missed by Ultrasound
• CMA08 – Techniques in Abdominal Wound Closure
• CMA09 – Shoulder Dystocia: How to Take the Fear Out of the Management
• CMA10 – Contemporary Approach to Diabetes in Pregnancy
• CMA11 – Induction of Labor: Present Concerns and Future Strategies

11:00 AM – 12:30 PM
• ACOG Annual Business Meeting

11:00 AM – 12:30 PM
• IS01 Interactive Session: Vulvar Diseases: What Do You Know?

12:15 PM – 1:30 PM
• Lunch with the Experts

“Brown Bag” Seminars
• BBM01 – Viral Infections in Pregnancy
• BBM02 – Maintaining Midlife Mood, Mind, and Memory: Therapeutic Options
• BBM03 – Cord Blood 2012: Sense and Nonsense
• BBM04 – Cosmetic Surgery for the Gynecologist

12:30 PM – 1:45 PM
• McCain Fellows Luncheon – The Hilton San Diego Bayfront Hotel

1:00 PM – 5:00 PM
• John Gibbons Jr, MD, Medical Student Lecture “OB-GYN as a Career: Residency Training and Dimensions of Practice – The Hilton San Diego Bayfront Hotel

1:00 PM – 5:00 PM
• The Dr. Scott and The Honorable Dr. Nan Hayworth Junior Fellow Course: “Preparing for Life After Residency...Transitioning from Training to Practice” - The Hilton San Diego Bayfront Hotel

1:45 PM – 2:45 PM
• 2nd Symposium: The John I. Brewer Memorial Lecture: Update and Future of Ovarian Cancer Screening

2:00 PM – 3:00 PM
• 1st Current Issues Update: Work Force Issues Affecting Obstetrician-Gynecologists

2:00 PM – 4:00 PM
• Papers on Current Clinical and Basic Investigation
2:00 PM – 5:00 PM

030 Postgraduate Courses
- MN301 – Female Sexuality and Psychological Well-Being
- MN302 – Evidence-Based Update on Menopause and Hormone Therapy
- MN303 – New Ways to Prevent Preterm Birth
- MN304 - Gynecologic Ultrasound for the Generalist

2:30 PM – 3:30 PM

Clinical Seminars (CMPS):
- CMP12 – Update on Perinatal Infections
- CMP13 – Prenatal Genetic Screening
- CMP14 – What’s Up Down There? A Review of Vulvar Dystrophies
- CMP15 – Don’t Believe Everything You Read
- CMP16 – Managing Infertility Without IVF: The Old Fashion Way
- CMP17 – Selecting a Urinary Incontinence Procedure
- CMP18 – Contraception for the Complex Patient—Interactive Case Discussions
- CMP19 – SSRI’s During Pregnancy: Fact vs Fiction
- CMP20 – Crime Scene to Courtroom—The Forensic Evaluation of the Sexual Assault Victim

2:30 PM – 4:00 PM
- IS02 Interactive Session: Blood Disorders in Pregnancy and Thromboembolism

2:50 PM – 3:50 PM
- 3rd Symposium: The Edith Louise Potter Memorial Lecture: Fetal Programming of Adult Obesity

3:45 PM – 4:30 PM
- Oral Poster Presentation

4:00 PM – 5:00 PM
- 4th Symposium: The March of Dimes Lecture: Seven Habits of the Highly Successful Obstetrician

5:30 PM – 7:00 PM
- Medical Student, JFCAC, Young Physician Reception - The Hilton San Diego Bayfront Hotel

TUESDAY, MAY 8

7:00 AM – 5:00 PM
- Registration

7:00 AM – 8:30 AM
- Junior Fellow Breakfast Business Meeting - The Hilton San Diego Bayfront Hotel

7:00 AM – 8:30 AM
- Young Physicians Breakfast Forum - The Hilton San Diego Bayfront Hotel

8:00 AM – 9:00 AM
- 5th Symposium: The Irvin M. Cushner Memorial Lecture: Population, the Environment, and the Role of the Obstetrician-Gynecologist

9:15 AM – 10:45 AM
- IS03 Interactive Session: The Pelvic Mass: Strategies for Providing Optimum Care and Avoiding Nasty Surprises

9:30 AM – 11:00 AM
- 6th Symposium: The Gerald and Barbara Holzman Stump the Professors

10:00 AM - 12:30 PM
- “Lunch with the Experts”

“Brown Bag” Seminars
- BBT01 – Health care Legislation: 2012 Challenges for Ob-Gyns
- BBT02 – Maintenance of Certification (MOC)
- BBT03 – Late Breaking News (AAGL, SREI, SGO, AUGS, SMFM)
- BBT04 – Making the Connection: Reproductive Health and Partner Violence

12:30 PM – 1:45 PM
- Adolescent Pregnancy Prevention Luncheon - The Hilton San Diego Bayfront Hotel

1:00 PM – 4:00 PM
- Ob-Gyn Residency Fair - The Hilton San Diego Bayfront Hotel

1:45 PM – 2:45 PM
- 8th Symposium: The Howard Taylor International Symposium: International Effect of Infertility Treatment and Multiple Gestation Management

1:45 PM – 2:45 PM
- 2nd Current Issues Update: Promoting Women Leaders in ACOG: You Can Get There From Here
2:00 PM – 3:30 PM
• IS05 Interactive Session: Contemporary Management of the Pap Test: Navigating the Practice Guidelines from the College and ASCCP

2:00 PM – 4:00 PM
• Papers on Current Clinical and Basic Investigation

2:30 PM – 5:00 PM
• ACOG Film Festival

2:30 PM – 3:30 PM
Clinical Seminars (CTPs):
• CTP21 – An Update on Sexually Transmitted Diseases and Vaginitis
• CTP22 – What’s New for Uterine Fibroids
• CTP23 – Cervical Insufficiency and Treatment: An Evidence-Based Review
• CTP24 – Inherited Breast and Gynecologic Cancer: What You Need to Know in 2012
• CTP25 – Best Practice Consideration in Managing Fetal Growth Restriction
• CTP26 – Thinking of Being a Hospitalist—What You Need to Know
• CTP27 – SBIRT: It’s Coming. Are We Ready? Screening, Brief Intervention and Referral to Treatment for the Ob-Gyn
• CTP28 – Sexuality in the Elder Woman
• CTP29 – Medical Management of Spontaneous and Elective Abortion

3:00 PM – 4:00 PM
• Special Session on Maternal and Child Mortality Featuring Mrs. Christy Turlington-Burns and Mrs. Tonya Lewis Lee

3:15 PM – 4:00 PM
Oral Poster Presentation

4:00 PM – 5:00 PM
• 9th Symposium: The Morton and Diane Stenchever Lecture: Disparities in Health Outcome

4:30 PM – 6:00 PM
Special Interest Groups Meetings

6:30 PM – 10:00 PM
The President’s Party

WEDNESDAY, MAY 9
7:00 AM – 12:00 PM
Registration

7:30 AM – 8:30 AM
• 3rd Current Issues Update: The Impact of the Affordable Care Act on OB-GYN Practice

9:00 AM – 10:30 AM
• Presidential Inauguration and Convocation
  James T. Breeden, MD, will be installed as the 63rd President of the American College and Congress of Obstetricians and Gynecologists
• Induction of New Fellows

10:30 AM – 3:00 PM
Exhibits Open

11:00 AM – 12:00 PM
• 10th Symposium: The Benson and Pamela Harer Seminar on History: The History of Preeclampsia as Seen by a Nephrologist

12:00 PM – 1:00 PM
• 11th Symposium: The John and Marney Mathers Lecture: Breast Cancer Detection and Risk Reduction: What Physicians and Patients Need to Know

12:00 PM – 1:00 PM
• 12th Symposium: The Hale Lecture: The Impact of ACOG’s Government Relations Activities on Women’s Health Care

EDUCATIONAL PROGRAM: LEARNING OBJECTIVES

At the conclusion of the 2012 Annual Clinical Meeting, learners should be able to:

- Identify recent developments in the identification and management of preeclampsia, including current concepts regarding the pathophysiology of preeclampsia, active and expectant management concepts, and the impact on several aspects of women’s health from the patient perspective.

- Identify factors affecting the availability of obstetrician-gynecologists for the future care of women in the United States, including patient accessibility to women’s health care providers and generational differences between obstetrician-gynecologists.

- Describe the impact of the 2010 Federal Health Care Reform Legislation (Affordable Health Care Act or ACA) on women’s health care, including steps involved in the full implementation of the ACA and the effects of the ACA on certain aspects of women’s health care and coverage by health insurance programs.

- Discuss the current state of ovarian cancer screening and potential future strategies for early identification of ovarian cancer that are currently under investigation.

- Summarize the effects of fetal development and fetal programming on lipogenesis, adult obesity, and the metabolic syndrome.

- Describe the role that educational materials play in developing safe practice patterns and how these materials may be utilized to develop uniform practice policies to promote patient safety.

- Summarize historic trends in fertility and the potential impact of trends in fertility on anticipated population growth in the future, particularly related to the impact on the environment.

- Identify major priorities in global women’s health and summarize interventions that could reduce maternal morbidity and mortality globally.

- Summarize the etiologies of the rising incidence of multiple gestation and the implications of types of twinning on diagnosis, complications, and management.

- Review the impact of women’s reproductive health disparities on adult disease and summarize challenges in reducing disparities in women’s health care.

- Describe the current state of breast cancer screening, breast cancer detection, and risk reduction, including appropriate use of genetic counseling and testing.

The 2012 Annual Clinical Meeting will also offer a wide variety of learning opportunities in postgraduate courses, including the very popular hands-on courses, clinical seminars, interactive sessions, film festivals, brown bag seminars, and “Lunch with the Experts.” Audience response capabilities are offered for a number of these learning sessions to enhance audience participation. Both oral and poster presentation sessions are included in the program, allowing for the communication of important basic science and clinical developments. The special telesurgery program, provided for the first time in 2011 (and to be continued for 2012 due to its superlative reviews), will provide detailed cadaveric dissection, utilizing multiple views of pelvic and abdominal anatomical structures commonly accessed during pelvic surgery.
**EDUCATIONAL PROGRAM**

“ADDED VALUE” FOR ACM COURSES
Many of the 2012 ACM courses contain information that may contribute to learning in specific areas of clinical competence or in specific focused areas of interest to the learner. Two asterisks (**) will be noted beside those courses that have been identified as being directly related to those specific areas. This information may be useful in your attempts to comply with credentialing and licensure requirements. You must take responsibility for submitting evidence of your attendance at these courses. The College does not guarantee that this evidence will be accepted by any agency or institution.

EDUCATIONAL PROGRAM

ACCME ACCREDITATION
The American College of Obstetricians and Gynecologists is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA PRA CATEGORY 1 CREDIT(S) ™
The American College of Obstetricians and Gynecologists designates this live activity for a maximum of 30 AMA PRA Category 1 Credit(s) ™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

COLLEGE COGNATE CREDIT(S)
The American College of Obstetricians and Gynecologists designates this live activity for a maximum of 30 College Cognate Credits toward the Program for Continuing Professional Development for the Annual Clinical Meeting. The College has a reciprocity agreement with the AMA that allows AMA PRA Category 1 Credits™ to be equivalent to College Cognate Credits.

Physicians may claim either AMA PRA Category 1 Credit(s) ™ OR College Cognate Credit. Physicians may NOT claim both.

Symposia Sessions, 030 Monday and Tuesday Postgraduate Courses, Clinical seminars, luncheon conferences, interactive sessions - up to a maximum of 18 College Cognate Credit(s) or 18 AMA PRA CATEGORY 1 CREDIT(S) ™.

120 Saturday and Sunday Courses - up to a maximum of 12 College Cognate Credit(s) or 12 AMA PRA Category 1 Credit(s) ™.

060 Saturday and Sunday Courses - up to a maximum of 6 College Cognate Credit(s) or 6 AMA PRA Category 1 Credits™.

030 Saturday and Sunday Courses - up to a maximum of 3 College Cognate Credit(s) or 3 AMA PRA Category 1 Credit(s) ™.

A day-to-day breakdown of credit will be available for those attending only some of the sessions. Physicians should only claim credit commensurate with the extent of their participation in the activity. If you are a physician member of the College, you may have your CME credits tracked through the College cognate system (our unique program for documenting continuing professional development). If you are not a physician member of the College, or if you do not want your credits tracked by the College, you will be responsible for reporting the CME credits that you earn at the Annual Clinical Meeting yourself.

DISCLOSURE OF FACULTY AND INDUSTRY RELATIONSHIPS
In accordance with College policy, all faculty members and planning committee members have signed a disclosure statement in which they have disclosed any financial interests or other relationships with industry relative to topics they will discuss at this program. At the beginning of the program, faculty members are expected to disclose any such information to participants. Such disclosure allows you to better evaluate the objectivity of the information presented in lectures. Please report on your evaluation form any undisclosed conflict of interest you perceive.

All events will be held at the San Diego Convention Center unless otherwise noted.
### SS01  Colposcopy Update: Evaluation and Management of Lower Genital Tract Disease - 2012

**Alan G. Waxman, MD, MPH**  
University of New Mexico School of Medicine, Albuquerque, New Mexico  

**Lori A. Boardman, MD**  
University of Central Florida College of Medicine, Orlando, Florida  

**Teresa M. Darragh, MD**  
University of California San Francisco, San Francisco, California  

**R. Kevin Reynolds, MD**  
University of Michigan, Ann Arbor, Michigan  

**Course Objectives**  
At the end of this course, the learner should be able to:  
- Compare ACOG guidelines for cervical cytology screening with new recommendations from the U.S. Preventive Services Task Force and the American Cancer Society  
- Discuss changes in lower genital tract histopathology terminology recommended in the recent consensus conference sponsored by ASCCP and the College of American Pathologists  
- Contrast screening management of abnormal tests in adolescents and young women vs. women over age 30 years  
- Discuss the natural history and oncogenic potential of human papillomavirus and its prevention with the HPV vaccines  

### SS02  Advanced Surgery for Pelvic Floor Dysfunction and Benign Gynecology

**Cheryl B. Iglesia, MD**  
MedStar Washington Hospital Center/Georgetown University Hospital, Washington, DC  

**Tommaso Falcone, MD**  
Cleveland Clinic Foundation, Cleveland, Ohio  

**Charles W. Nager, MD**  
University of California San Diego, San Diego, California  

**Rebecca G. Rogers, MD**  
University of New Mexico Health Sciences Center, Albuquerque, New Mexico  

**Course Objectives**  
At the end of this course, the learner should be able to:  
- Identify the anatomy of the pelvic floor and pelvic sidewalls as it relates to surgical planning  
- Discuss how to examine a patient with urinary incontinence and/or pelvic organ prolapse and the testing used for the diagnosis and treatment of pelvic floor disorders  
- Outline surgical approaches for treatment of endometriosis, leiomyomata, and adnexal masses  
- Illustrate which surgical procedures are effective for the treatment of anterior, apical, and posterior compartment defects and the principles of common surgical approaches for correction of these defects  
- Minimize complications of these procedures  
- Demonstrate the process of integration of surgical innovations into routine practice  
- Use their knowledge of pelvic floor dysfunction and surgical management to perform the appropriate and best surgical procedure for the individual patient
120 POSTGRADUATE COURSES (TWO-DAY)

**SS03 Mastering the Tools of Evidence for Practice**

Robert A. Wild, MD, PhD, MPH  
University of Oklahoma College of Medicine, Oklahoma City, Oklahoma

Kurt T. Barnhart, MD  
University of Pennsylvania, Philadelphia, Pennsylvania

Lee A. Learman, MD  
Indiana University School of Medicine, Indianapolis, Indiana

**Course Objectives**
At the end of this course, the learner should be able to:

- Formulate a well-built clinical question
- Identify sources of evidence and complete a search pertinent to one of the four domains
- Appraise articles critically
- Summarize findings
- Apply findings to clinical questions
- Assess implications for practice
060 POSTGRADUATE COURSES (ONE - DAY)

SATURDAY, MAY 5
8:15 AM - 5:00 PM

SA601  Prevention, Recognition, and Management of Complications from Gynecologic Surgery **See page 12

Howard T. Sharp, MD
University of Utah Health Sciences Center, Salt Lake City, Utah

Mark K. Dodson, MD
University of Utah Health Sciences Center, Salt Lake City, Utah

Malcolm G. Munro, MD
David Geffen School of Medicine at UCLA, Los Angeles, California

Course Objectives
At the end of this course, the learner should be able to:
• Outline strategies to minimize the risk of surgical complications
• Describe presenting symptoms associated with postoperative complications
• Detail therapeutic options to optimally manage surgical complications
• Enumerate complications of gynecologic surgery

SA602  Controversies in Perinatal Medicine: The Great Debates

John T. Repke, MD
Pennsylvania State University College of Medicine, Milton S. Hershey Medical Center, Hershey, Pennsylvania

Baha M. Sibai, MD
University of Cincinnati College of Medicine, Cincinnati, Ohio

Serdar H. Ural, MD
Pennsylvania State University College of Medicine, Milton S. Hershey Medical Center, Hershey, Pennsylvania

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the current controversies surrounding prematurity prevention and management, including cervical length measurement, use of 17 alpha-hydroxyprogesterone caproate, vaginal progesterone, the use of cerclage, and the role of fetal fibronectin
• Identify the best practices regarding screening for and management of thrombophilias and antiphospholipid syndrome
• Discuss the resurgent controversies surrounding the continued increase in the cesarean delivery rate, VBAC and “near-term” deliveries
• Cite the best practice management approaches to medically complicated pregnancies, including management of preeclampsia, management of acute obstetrical hemorrhage, and the screening for and management of gestational diabetes
060 POSTGRADUATE COURSES

SA603  Best Practices in High Risk Pregnancy **See page 12

Mary E. D’Alton, MD
Columbia University, New York Presbyterian Hospital, New York City, New York

Alessandro Ghidini, MD
Georgetown University Hospital, Washington, DC

Catherine Y. Spong, MD
The Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institutes of Health, Bethesda, Maryland

Course Objectives
At the end of this course, the learner should be able to:
• Describe controversial and timely obstetric topics, including management of morbid obesity and new findings in prenatal diagnosis
• Describe the management options for obstetric complications such as atypical preeclampsia and shortened cervical length
• Define the patient population who meet the criteria for progesterone administration to prevent preterm birth and the risks and benefits associated with cesarean delivery on maternal request
• Identify the most common thrombophilias linked to thrombosis and which thrombophilia tests to order in a patient with thrombosis

SA604  Making Laparoscopic Hysterectomy Part of Your Practice: An Introduction, Review of the Evidence and Video Tutorial to Total Laparoscopic Hysterectomy and Laparoscopic Supracervical Hysterectomy

Michael P. Traynor, MD
Northwest Kaiser Permanente, Portland, Oregon

Cameron Haugen, MD
Kaiser Permanente-Salmon Creek, Vancouver, Washington

Kevin S. Overbeck, MD
Northwest Kaiser Permanente, Portland, Oregon

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the basics of laparoscopic hysterectomy, the most recent clinical evidence surrounding the procedure, the indications, and contraindications.
• Discuss primary and alternative site entry techniques as well as optimal location for trocar placement
• Outline the equipment, energy sources, and fundamental skills necessary to complete a laparoscopic hysterectomy, including laparoscopic colpotomy, morcellation, and suturing
• Review both the basic procedural technique involved in performing a laparoscopic hysterectomy as well as more advanced “tips and tricks” for some of the more challenging patients (prior surgeries, obesity) and pathology (endometriosis, leiomyoma) that may be encountered.
• Optimize the access, exposure, and visualization necessary to perform significantly challenging laparoscopic hysterectomies
• Employ an effective strategy to prevent and if necessary manage some of the more common complications associated with laparoscopic hysterectomy

SA605  Advancements in Vulvar and Vaginal Diseases **See page 12

David Scott Miller, MD
University of Texas Southwestern Medical Center, Dallas, Texas

Libby Edwards, MD
Carolinas Medical Center, Waxhaw, North Carolina

Hope K. Haeftner, MD
University of Michigan Center for Vulvar Diseases/University of Michigan Hospitals, Ann Arbor, Michigan

Course Objectives
At the end of this course, the learner should be able to:
• Perform a thorough vulvar and vaginal examination
• Evaluate vulvodynia
• Diagnose vulvovaginal disorders
• Apply contemporary therapeutic medical and surgical vulvovaginal interventions
### SA606 Breast Care in 2012: A Toolkit for the Practicing Ob-Gyn **See page 12**

Mark D. Pearlman, MD  
University of Michigan Health Systems, Ann Arbor, Michigan

Jennifer L. Griffin Miller, MD  
University of Nebraska Medical Center, Omaha, Nebraska

Elizabeth R. Keeler, MD  
MD Anderson Hospital, University of Texas, Houston, Houston, Texas

**Course Objectives**

At the end of this course, the learner should be able to:

- Screen and identify women at high risk for breast cancer and develop a breast cancer screening plan for women at average, or high-risk, for breast cancer
- Develop evidence-based management strategies for the evaluation and diagnosis of a variety of breast complaints, including breast masses, nipple discharge, breast pain, abnormal breast imaging, inflammatory disorders
- Provide comprehensive gynecologic care for women with breast cancer, including counseling about future pregnancies; management of gynecologic complications of hormonal adjuvant therapies (e.g., tamoxifen, aromatase inhibitors); and developing nonhormonal management plans for breast cancer survivors with menopausal symptoms
- Appropriately screen for women at risk for carrying BRCA gene mutations, appropriately refer these women for genetic testing, and incorporate appropriate screening and risk reduction methods for both breast and ovarian cancer into practice

### SA607 Information Technology: Improving Patient Outcomes and Optimizing Practice Management **See page 12**

Mark S. Seigel, MD  
Shady Grove Adventist Hospital, Rockville, Maryland

Caitlin M. Cusack, MD  
Insight Informatics, Manchester, New Hampshire

Samuel N. Lederman, MD  
JFK Medical Center, Atlantis, Florida

**Course Objectives**

At the end of this course, the learner should be able to:

- Discuss the process of selecting software and hardware solutions for electronic health records and have a basic understanding of IT project planning and achieving stakeholder consensus
- Implement an electronic system while optimizing workflow and achieving meaningful use and understand effective staff and provider training to improve efficiency, decrease errors, and improve patient, employee and physician satisfaction
- Expand your health information technology system to include interoperability with hospital, imaging center, laboratory (and patient portals), use of hand-held devices, and social networking
- List risk reduction strategies for electronic records, improve communications, address confidentiality concerns, explain benefits to the physician-patient relationship
- Manage your practice on-line, including web and social media while protecting your on-line reputation
060 POSTGRADUATE COURSES

SUNDAY, MAY 6
8:15 AM - 5:00 PM

SU601 Coding and Documentation for the Obstetrician and Gynecologist

J. Martin Tucker, MD
University of Mississippi School of Medicine, Jackson, Mississippi

Philip N. Eskew Jr, MD
Indiana University School of Medicine, North Webster, Indiana

George A. Hill, MD
Nashville Fertility Center, Nashville, Tennessee

Course Objectives
At the end of this course, the learner should be able to:
• Identify the importance of the physician's role in accurate coding
• Define the global surgical and obstetrical packages
• Use the Medicare documentation guidelines appropriately
• Code for ancillary services outside the global package

SU602 Current Topics in Reproductive Endocrinology for the Clinician

Michelle L. Matthews, MD
Fertility Specialists Medical Group, San Diego, California

Paul B. Marshburn, MD
Carolinas Medical Center, Charlotte, North Carolina

Emre U. Seli, MD
Yale University, New Haven, Connecticut

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the current and efficient management of the infertile couple in an obgyn practice with an emphasis on evidence-based diagnostic and therapeutic protocols
• Identify the modern medical and surgical options available for the treatment of endometriosis
• Describe the recent advances in the conservative management of uterine fibroids, including methods of myomectomy, myoma ablation, and medical alternatives
• Identify types of sexual dysfunction and factors that influence libido in women
• Identify the risks and benefits of sex-steroid administration and other medically enhancing therapies for hypoactive sexual desire
• Discuss clinical consequences of polycystic ovary syndrome and understand current approaches to minimize cardiovascular and metabolic risk and optimize reproductive outcome
• Discuss the current definition, diagnostic testing, and treatment options for early recurrent pregnancy loss

SU603 Practical Approaches to Common Obstetrical Dilemmas: Art and Evidence

Jerome Yankowitz, MD
University of South Florida, Tampa, Florida

George R. Saade, MD
University of Texas Medical Branch, Galveston, Texas

Philip Samuels, MD
Ohio State University, Columbus, Ohio

Course Objectives
At the end of this course, the learner should be able to:
• Discuss advanced concepts to manage common problems faced by pregnant women
• Discuss the most recent controversies and emerging issues in obstetric management
• Discuss management of various aspects of high-risk pregnancies
• Formulate practical plans for the management of common obstetrical problems using evidence-based approaches and ACOG guidelines
SU604  Menopause and Hormone Therapy: Reevaluating the Evidence and Looking Toward the Future **See page 12

Hugh S. Taylor, MD
Yale University School of Medicine, New Haven, Connecticut

Lubna Pal, MD
Yale University School of Medicine, New Haven, Connecticut

Joann V. Pinkerton, MD
University of Virginia, Charlottesville, Virginia

Course Objectives
At the end of this course, the learner should be able to:
• Identify options for preservation of bone in menopausal women
• Discuss metabolic effects of menopause
• Discuss hormones and the heart: the timing hypothesis
• Discuss estrogens and progestins and breast health: Is there a safe way to administer menopausal hormone therapy
• Discuss sexuality in the menopause
• Discuss SERMs and TSECs, the future of hormone therapy

SU605  Pearls and Pitfalls for Minimally Invasive Hysterectomy

Andrew I. Brill, MD
California Pacific Medical Center, San Francisco, California

Kristinell Keil, MD
Keil Urogynecology, Denver, Colorado

Resad Pasic, MD
University of Louisville, Louisville, Kentucky

Thomas N. Payne, MD
Oschner Clinic Foundation, Baton Rouge, New Orleans

Course Objectives
At the end of this course, the learner should be able to:
• Apply strategies for difficult vaginal hysterectomy
• List key steps for laparoscopic supracervical and total hysterectomy
• Elucidate the utility of advanced bipolar electrosurgical devices
• Integrate a systemic approach to robotic laparoscopic hysterectomy
• Employ methods to reduce risk during laparoscopic hysterectomy

SU606  Women's Health Practice of the Future: Information and Tools for Success **See page 12

Robert W. Yelverton, MD
Women’s Care Florida, Tampa, Florida

Rosamarie Nelson, MS
Medical Group Management Association Health Care Consulting Group, Englewood, Colorado

Dorimar Siverio-Minaldi, MPH, MBA
Women’s Care Florida, Tampa, Florida

Course Objectives
At the end of this course, the learner should be able to:
• Anticipate probable changes in ambulatory ob/gyn over the next decade
• Anticipate changes in reimbursement methodology by building electronic infrastructure systems to measure quality and efficiency performance
• Anticipate changes in payer mix and how to prepare
• Provide information on anticipated changes in office - based care to promote, enhance, and verify patient safety
**HANDS-ON 060 POSTGRADUATE COURSES (ONE - DAY)**

**SATURDAY, MAY 5**

8:15 AM - 5:00 PM

Lunch is included with the course fee for Hands-On Courses.

<table>
<thead>
<tr>
<th>HO01</th>
<th>Hands-On Hysteroscopy: Diagnostic and Operative Techniques for the Generalist</th>
</tr>

      | Isabel C. Green, MD  
      | Johns Hopkins University, Baltimore, Maryland |

**Course Objectives**

At the end of this course, the learner should be able to:

- Describe the role of hysteroscopic procedures in the management of common gynecologic disorders
- Practice their skills in operative hysteroscopy by using simulators
- Identify the indications and technique of hysteroscopic sterilization, myomectomy and endometrial ablation
- Manage and minimize risk of complications in operative hysteroscopy

<table>

      | Harborview Medical Center, Seattle, Washington  
      | Peter E. Nielsen, MD  
      | Madigan Army Medical Center, Tacoma, Washington |

**Course Objectives**

At the end of this course, the learner should be able to:

- Identify current evidence-based guidelines for management of obstetric emergencies
- Perform appropriate technical maneuvers during obstetric emergencies
- Demonstrate essential teamwork principles necessary for optimal management of obstetric emergencies, including operative delivery
HANDS-ON 060 POSTGRADUATE COURSES

SUNDAY, MAY 6
8:15 AM - 5:00 PM

Lunch is included with the course fee for Hands-on Courses.

HO03  Hands-On Basic Obstetric Ultrasound: A Hands-On Experience

Joan M. Mastrobattista, MD
Baylor College of Medicine, Houston, Texas

Henry L. Galan, MD
University of Colorado, Aurora, Colorado

John C. Hobbins, MD
University of Colorado, Aurora, Colorado

Sifa Turan, MD
University of Maryland Medical Center, Baltimore, Maryland

J. Oscar Barahona, BS, RDMS
Norwalk, Connecticut

Course Objectives
At the end of this course, the learner should be able to:

- Describe basic fetal biometry and strategies needed to assist with the gestational age dating
- Define basic Doppler applications in pregnancy
- Describe normal and abnormal amniotic fluid volumes and abnormal placentation with its relevant implications (eg, placenta previa, placenta accreta)
- Identify imaging parameters for the standard fetal examination and basic fetal cardiac evaluation
- Utilize precise landmarks for appropriate cervical length evaluation
- Optimize the quality of ultrasound images by employing appropriate machine adjustments
HO04  Hands-On Laparoscopic Techniques in Advanced Gynecologic Surgery

Arnold Patrick Advincula, MD
University of Central Florida College of Medicine, Kissimmee, Florida

Jon I. Einarsson, MD, MPH
Brigham and Women's Hospital, Harvard Medical School, Boston, Massachusetts

Rosanne M. Kho, MD
Mayo Clinic, Scottsdale, Arizona

Ted Lee, MD
University of Pittsburgh, Pittsburgh, Pennsylvania

Richard B. Rosenfield, MD
Pearl Women's Center, Portland, Oregon

Kevin J. E. Stepp, MD
Carolinas Medical Center, Charlotte, North Carolina

Frank Fu-Sheng Tu, MD
North Shore University Health System, University of Chicago, Evanston, Illinois

Lab Assistants:
Amber Bradshaw, MD
Florida Hospital-Celebration Health, Celebration, Florida

Kathy Huang, MD
New York Hospital of Queens, Weill Cornell Medical Center, New York, New York

Kristin E. Patzkowsky, MD
Montefiore Medical Center, Albert Einstein College of Medicine, New York, New York

Kimberly A. Swan, MD
Florida Hospital-Celebration Health, Celebration, Florida

Course Objectives
At the end of this course, the learner should be able to:

• Formulate safe and efficient approaches to advanced endoscopic procedures such as laparoscopic hysterectomy
• Describe the differences among the various electrosurgical devices available and what procedures benefit best from their application
• Practice various laparoscopic suturing techniques, including robotics and how to successfully incorporate these skills into minimally invasive gynecologic procedures
• Demonstrate the proper use of laparo-endoscopic single site (LESS), single port access (SPA), or single incision laparoscopic surgery (SILS) techniques
• Acquire various tips and tricks for managing and minimizing the risks of complications in operative laparoscopy
• Incorporate strategies for navigating pelvic anatomy, patient positioning, peritoneal access, and managing obesity
• Develop a practical approach to the surgical management of chronic pelvic pain

HO05  Stopping the Leaks! Evaluation and Treatment of Fecal and Urinary Incontinence

John R. Fischer, MD
Uniformed Services University of the Health Sciences, Bethesda, Maryland

Jerome L. Buller, MD
Uniformed Services University of the Health Sciences, Bethesda, Maryland

Charles W. Nager, MD
University of California, San Diego, San Diego, California

Karen L. Noblett, MD
University of California Irvine, Irvine, California

Johnnie Wright Jr, MD
Walter Reed Army Medical Center, Washington, DC

Course Objectives
At the end of this course, the learner should be able to:

• Identify the anatomy of the female perineum especially how it relates to urinary and fecal continence
• Discuss the evaluation and treatment of urinary incontinence
• Describe the evaluation of urinary and fecal incontinence
SA301 Recurrent First-Trimester Pregnancy Loss: Explained and Unexplained

William H. Kutteh, MD
University of Tennessee Health Sciences Center, Memphis, Tennessee

Mary D. Stephenson, MD
University of Chicago, Chicago, Illinois

Course Objectives
At the end of this course, the learner should be able to:
• Use proper terminology when describing pregnancy loss and discuss when it is appropriate to initiate an evaluation for recurrent early pregnancy loss
• Describe the known etiologies that have been associated with RPL and outline the diagnostic tests that should be offered to couples with RPL
• Explain the risks, benefits, and expected outcomes of treatments for RPL
• Counsel patients with unexplained recurrent early pregnancy loss about expected outcomes with and without intervention

SA302 Update in Gynecologic Oncology - and the Impact for the Practicing Gynecologist

Carolyn D. Runowicz, MD
Florida International University, Miami, Florida

Mark H. Einstein, MD
Albert Einstein College of Medicine, Montefiore Medical Center, Bronx, New York

Course Objectives
At the end of this course, the learner should be able to:
• Implement changes in screening guidelines in cervical cancer
• Review guidelines for identification and management of women at risk for breast and ovarian cancer
• Review the randomized clinical trials in screening for ovarian cancer
• Gain knowledge in the controversies of HPV vaccination
• Update patients on breast cancer prevention and the gynecologic effects of these chemopreventive drugs

SA303 Medical Disorders During Pregnancy: Update 2012

Michelle Y. Owens, MD
University of Mississippi Medical Center, Jackson, Mississippi

Gabriella Pridjian, MD
Tulane University Medical School, New Orleans, Louisiana

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the criteria for diagnosing common medical disorders in pregnancy
• Identify medications that can be safely used to treat specific medical disorders in pregnancy
• Describe adverse perinatal outcomes and suggested interventions for medical disorders covered in this course
• List the prognoses of specific medical conditions not only for labor and delivery, but also for the long-term non-pregnant state
• Identify those obstetric patients requiring maternal-fetal medicine consultation
## 030 POSTGRADUATE COURSES

### SU301  Sexuality and The Life Cycle **See page 12**

**Haywood L. Brown, MD**  
Duke University Medical Center, Durham, North Carolina  
**Michael L. Krychman, MD**  
Southern California Center for Sexual Health and Survivorship, Newport Beach, California

**Course Objectives**

At the end of this course, the learner should be able to:
- Discuss the sexual response cycle and the female anatomic and physiological changes in the reproductive years
- Discuss common myths related to sexual activity during pregnancy and the impact of the physiological and psychological changes of pregnancy on sexual desire and function
- Identify common sexual complaints associated with the menopausal transition and with medical co-morbidities and formulate counseling and treatment strategies

### SU302  PCOS: Comprehensive Work-Up and Management

**Anuja Dokras, MD**  
University of Pennsylvania Medical Center, Philadelphia, Pennsylvania  
**Daniel A. Dumesic, MD**  
UCLA Department of Obstetrics and Gynecology, Los Angeles, California

**Course Objectives**

At the end of this course, the learner should be able to:
- Diagnose PCOS phenotypes based on current criteria
- Review long-term cardiovascular risks and screening recommendations in women with PCOS
- Outline treatment options for enhancing fertility
- Discuss the use of OCPs for the management of PCOS

### SU303  Intrapartum Fetal Heart Rate Monitoring: The Evolution of Consensus **See page 12**

**David A. Miller, MD**  
University of Southern California, Children's Hospital Los Angeles, Los Angeles, California

**Course Objectives**

At the end of this course, the learner should be able to:
- Discuss the evolution of standardized FHR terminology in the United States
- Identify three central concepts of standardized FHR interpretation that are evidence-based and reflect consensus in the literature
- Describe a standardized approach to intrapartum FHR monitoring management that is evidence-based, reflects consensus in the literature, and is practical and teachable
- Identify and address common medical-legal pitfalls in intrapartum fetal monitoring

### SA304  GOT ERROR?: Prevention and Management of Adverse Events **See page 12**

**Patrice M. Weiss, MD**  
Carilion Clinic, Virginia Tech Carilion School of Medicine, Roanoke, Virginia  
**Victoria L. Green, MD, JD, MBA**  
Emory University School of Medicine, Atlanta, Georgia

**Course Objectives**

At the end of this course, the learner should be able to:
- List causes of unanticipated outcomes
- Demonstrate disclosure of medical errors
- Describe key elements of informed consent
- Discuss the impact of medical errors on providers
### 030 POSTGRADUATE COURSES

#### SU304  Taking the Lead in Patient Safety: Reducing Risks, Improving Outcomes **See page 12**

John S. Wachtel, MD  
Stanford University School of Medicine, Stanford, California

Paul A. Gluck, MD  
University of Miami Miller School of Medicine, Miami, Florida

**Course Objectives**

At the end of this course, the learner should be able to:

- Define and give examples of defensive barriers to reduce patient harm
- Describe the benefits to physicians and patients of having a laborist program
- Discuss three strategies that clinicians can use to promote a patient safety culture
- Describe the moral, ethical, and legal basis for disclosure of adverse events

#### SU305  New Insights into Breast Health - Management, Safety, and Medicolegal Considerations**See page 12**

Victoria L. Green, MD, JD, MBA  
Emory University School of Medicine, Atlanta, Georgia

Patrice M. Weiss, MD  
Carilion Clinic, Virginia Tech Carilion School of Medicine, Roanoke, Virginia

**Course Objectives**

At the end of this course, the learner should be able to:

- Review safety concerns that affect breast care
- Discuss the management of benign breast conditions and minimally invasive procedures for breast evaluation
- Review breast cancer risk assessment and options available to women at high risk
- Discuss and analyze controversial screening guidelines
- List the most common malpractice concerns related to breast disease management

#### MN301  Female Sexuality and Psychological Well-Being

Murray A. Freedman, MD  
Medical College of Georgia, Augusta, Georgia

Sandra Ann Carson, MD  
Women and Infants Hospital of Rhode Island/Warren Alpert Medical School of Brown University, Providence, Rhode Island

**Course Objectives**

At the end of this course, the learner should be able to:

- Diagnose and treat patients with sexual dysfunction
- Become more comfortable with their own sexuality as well as the patient’s
- Identify the role that age, hormones, and partnership issues play in sexuality
- Discuss why sexuality is a major quality of life issue

#### MN302  Evidence-Based Update on Menopause and Hormone Therapy **See page 12**

Lila E. Nachtigall, MD  
New York University School of Medicine, New York, New York

Wulff H. Utian, MD  
Cleveland Clinic/Reproductive Biology Case Western Reserve, Cleveland, Ohio

**Course Objectives**

At the end of this course, the learner should be able to:

- Describe the full impact of menopause
- Determine the true risks of breast cancer in postmenopausal women, in those receiving and not receiving hormonal therapy
- Determine the risks of cardiovascular disease in various groups of postmenopausal women and the effects of using hormonal therapy
- Interpret the risks and benefits reported in recent studies
- Identify the current appropriate role of hormonal therapy after menopause
### MN303  New Ways to Prevent Preterm Birth

**Mildred M. Ramirez, MD**  
Baylor College of Medicine, Houston, Texas

**William A. Grobman, MD**  
Northwestern University Medical School, Chicago, Illinois

**Course Objectives**  
At the end of this course, the learner should be able to:
- Review published evidence in support of or against cerclage placement
- Identify candidates for prophylactic and “rescue progesterone”
- Review the current evidence of available tocolysis

### MN304  Gynecologic Ultrasound for the Generalist

**Chrystie K. Fujimoto, MD**  
University of Hawaii School of Medicine, Honolulu, Hawaii

**Steven R. Goldstein, MD**  
New York University School of Medicine, New York, New York

**Course Objectives**  
At the end of this course, the learner should be able to:
- Discuss the role of pelvic ultrasound in the evaluation of abnormal vaginal bleeding
- Discuss the use of ultrasound in early pregnancy, including ectopic pregnancy
- Develop a differential diagnosis of adnexal masses and discuss management strategies
### SYMPOSIA SESSIONS

#### MONDAY, MAY 7

**OPENING CEREMONY**

8:15 AM – 8:45 AM

- James N. Martin Jr, MD
  President
- Welcome Remarks
  Thomas R. Moore, MD, Host
- Christopher M. Zahn, MD
  Chair, Committee on Scientific Program
- Introduction of Officers

**SY01A**

**PRESIDENT’S PROGRAM: The Samuel A. Cosgrove Memorial Lecture**

**“Preeclampsia: Past, Present, and Future”**

8:45 AM – 9:30 AM

- James M. Roberts, MD
  Magee-Womens Research Institute, University of Pittsburgh, Pittsburgh, Pennsylvania

**Course Objectives**

At the end of this session, the learner should be able to:

- Discuss current concepts of preeclampsia pathophysiology of preeclampsia
- Discuss the historical basis of these concepts
- Discuss the directions of future preeclampsia research

**SY01B**

**PRESIDENT’S PROGRAM: The Anna Marie D’Amico Lecture**

**“The Management of Preeclampsia: Summary of the Hypertension in Pregnancy Task Force”**

9:30 AM – 10:00 AM

- John R. Barton, MD
  Central Baptist Hospital, Lexington, Kentucky

**Course Objectives**

At the end of this session, the learner should be able to:

- Discuss the diagnosis and management of mild gestational hypertension-preeclampsia
- Discuss recent concepts regarding timing of delivery in women with mild gestational hypertension-preeclampsia
- Describe candidates for expectant management of severe preeclampsia
- Discuss a protocol for expectant management of severe preeclampsia, including maternal-fetal testing and indications for delivery

**SY01C**

**PRESIDENT’S PROGRAM: The Jim and Midge Breeden Lecture**

**“Patient Perspectives on Preeclampsia”**

10:00 AM – 10:30 AM

- Eleni Z. Tsigas
  Preeclampsia Foundation, Melbourne, Florida

**Course Objectives**

At the end of this session, the learner should be able to:

- Discuss the breadth of the emotional, psychological, social, and physiological impact on patients (and family members) as a result of preeclampsia and related hypertensive disorders of pregnancy (HDP)
- Discuss the impact of patient education on health outcomes and incorporate patient education into their practices
- List the ways patients may communicate their complaints to avoid the misdiagnoses often associated with HDPs, especially given how quickly the HDPs may deteriorate

**SY02**

**The John I. Brewer Memorial Lecture “Update and Future of Ovarian Cancer Screening”**

1:45 PM – 2:45 PM

- Barbara A. Goff, MD
  University of Washington Medical Center, Seattle, Washington

**Course Objectives**

At the end of this session, the learner should be able to:

- Identify the current ovarian cancer screening recommendations in the U.S. and why most tests have such a low positive predictive value
- List the screening strategies that are showing promise in clinical trials
- Cite the factors that may help with early diagnosis of ovarian cancer
SYMPOSIA SESSIONS

SY03  The Edith Louise Potter Memorial Lecture
"Fetal Programming of Adult Obesity"

Michael G. Ross, MD
Harbour-UCLA Medical Center, Torrance, California

Course Objectives
At the end of this session, the learner should be able to:
• Discuss the contribution of fetal development to the current epidemic of adult obesity and metabolic syndrome
• Describe how fetal programming effects the physiology of appetite and adiposity/lipogenesis
• Cite how epigenetic mechanisms, more than genetic variants, contribute to obesity

SY04  The March of Dimes Lecture
"Seven Habits of the Highly Successful Obstetrician " **See page 12

Steven L. Clark, MD
Hospital Corporation of America, Twin Bridges, Montana

Course Objectives
At the end of this session, the learner should be able to:
• Recognize the key role ACOG documents should play in forming a foundation for safe practice
• Discuss how to adapt these documents to form local, uniform practice policies
• Discuss the small list of practice situations that result in the majority of preventable adverse perinatal outcomes

SY05  The Irvin M. Cushner Memorial Lecture
"Population, the Environment, and the Role of the Obstetrician-Gynecologist "

Jeffrey T. Jensen, MD MPH
Oregon Health and Science University, Portland, Oregon

Course Objectives
At the end of this session, the learner should be able to:
• Describe the historic growth of human population
• Discuss the impact of various fertility scenerios on anticipated population growth over the next 100 years
• List areas of high, medium, and low fertility
• Discuss the interaction between population growth and consumption patterns on environmental decline

SY06  The Gerald and Barbara Holzman
"Stump The Professors"

Fascinating clinical cases submitted by Junior Fellows of the College are presented to “stump” a panel of professors.

Moderator:
Raul Artal, MD
Saint Louis University School of Medicine, St. Louis, Missouri

Professors:
Norman F. Gant Jr, MD
Dallas, Texas

Cynthia Izuno Macri, MD
Kensington, Maryland

Ralph W. Hale, MD
Retired - ACOG Executive Vice President
Washington, DC

Nanette F. Santoro, MD
University of Colorado Denver School of Medicine
Aurora, Colorado
| SY07 | The Donald F. Richardson Memorial Lecture  
"Implementing Global Women’s Health" | 11:15 AM - 12:15 PM |
|------|----------------------------------------------------------------------------------|---------------------|
|      | Timothy R. B. Johnson, MD  
University of Michigan, Ann Arbor, Michigan |                     |
|      | Course Objectives  
At the end of this session, the learner should be able to:  
• Enumerate the major global women’s health priorities  
• Discuss the principles of implementation science  
• List the evidence-based interventions and programs that could reduce global maternal mortality and morbidity |                     |

| SY08 | The Howard Taylor International Lecture  
"International Effect of Infertility Treatment and Multiple Gestation Management" | 1:45 PM - 2:45 PM |
|------|-----------------------------------------------------------------------------------------------|------------------|
|      | Gian Carlo Di Renzo, MD PhD  
University of Perugia, Santa Maria della Misericordia University Hospital, Perugia, Italy |               |
|      | Course Objectives  
At the end of this session, the learner should be able to:  
• Discuss international epidemiology on twins and multiple pregnancies  
• Discuss why the incidence of multiple pregnancies has been increasing so much in the last decade  
• Discuss chorionicity and amnionicity: diagnosis and implications  
• Describe management of twin pregnancy according to chorionicity  
• List the peculiar pathologies of twinning  
• Discuss the TTTS Syndrome: acute and chronic, differentiation and treatment options  
• Discuss preterm birth in twins and fetal lung maturity issue.  
• Discuss delivery in twins and delayed delivery as an option  
• Discuss postpartum monitoring of the twins’ mother |               |

| SY09 | The Morton and Diane Stenchever Lecture  
"Disparities in Health Outcome **See page 12 | 4:00 PM - 5:00 PM |
|------|----------------------------------------------------------------------------------|------------------|
|      | Haywood L. Brown, MD  
Duke University Medical Center, Durham, North Carolina |                     |
|      | Course Objectives  
At the end of this session, the learner should be able to:  
• Discuss the impact of women’s reproductive health disparities on adult medical morbidities and female mortality  
• Discuss the impact of racial/ethnic disparity in pregnancy-related conditions such as prematurity  
• Discuss the challenges in narrowing the gap in racial/ethnic disparity in the U.S. populations, strategies for improvement and cost implications |                     |
SYMPOSIA SESSIONS

**WEDNESDAY, MAY 9**

**SY10**  
The Benson and Pamela Harer Seminar on History  
“The History of Preeclampsia as Seen by a Nephrologist”  
11:00 AM - 12:00 PM

Marshall D. Lindheimer, MD  
University of Chicago, Division of Biological Sciences, Pritzker School of Medicine, Chicago, Illinois

Course Objectives
This session focuses on the colorful history that surrounds both preeclampsia and eclampsia, “the disease of theories.” At the end of this session, the learner should be able to:

- Discuss the delineation of this entity as a disease specific to pregnancy
- Discuss the evolution of the entity from a “disease of theory” to emerging evidence of definitive causality
- Discuss the history of attempts to prevent and treat the disease and how this has evolved

**SY11**  
The John and Marney Mathers Lecture  
“Breast Cancer Detection and Risk Reduction: What Physicians and Patients Need to Know”  
12:00 PM - 1:00 PM

Virginia M. Herrmann, MD  
Medical University of South Carolina, Breast Health Center, Hilton Head, South Carolina

Course Objectives
At the end of this session, the learner should be able to:

- Identify appropriate uses of screening modalities for breast, including mammography, ultrasound, MRI scanning, and newer modalities such as breast tomosynthesis
- Identify patients at increased risk for breast cancer, and explain available risk reduction strategy
- Discuss the use of genetic counseling and testing for appropriate individuals

**SY12**  
The Hale Lecture  
“The Impact of ACOG’s Government Relations Activities on Women’s Health Care”  
12:00 PM - 1:00 PM

Harold A. Kaminetzky, MD - Course Director  
ACOG Past President, Scotch Plains, New Jersey

Faculty - TBD

Course Objectives
At the end of this session, the learner should be able to:

- Discuss the rationale for the move of ACOG's headquarters to Washington, DC
- Identify the methods used to modify laws and the regulations that are developed to implement them
- Gain insight into how the cost of campaigning for public office has led to the growth of political action committees and the need for ACOG to participate to promote and protect support for women's health issues
- Discuss how the growth and success of the Congressional Leadership Conferences are developing a large cohort of fellows knowledgeable about and capable of dealing with state and federal government women's health issues
- Discuss that adequate compensation for health services is a necessity for increasing access to care
CLINICAL SEMINARS

MONDAY, MAY 7
10:45 AM - 11:45 AM

CMA01 Preterm Birth: Best Practices for the Obstetrician

Rita W. Driggers, MD
Georgetown University School of Medicine, Washington, DC

Course Objectives
At the end of this course, the learner should be able to:
• Properly identify the patient who may benefit from administration of vaginal progesterone, administration of intramuscular progesterone, and placement of a cerclage
• Select the most appropriate management for the patient with a sonographically short cervix
• Properly identify the patient who may benefit from treatment with magnesium for neuroprophyaxis and antenatal corticosteroids

CMA02 Endometriosis Update

Gregory M. Christman, MD
University of Michigan, Ann Arbor, Michigan

Course Objectives
At the end of this course, the learner should be able to:
• Describe the role and utility of various medical options to address endometriosis - associated pelvic pain
• Determine the appropriate role of surgery in assisting patients with endometriosis - associated infertility
• Provide an update on the latest research in endometriosis as the basis for potential lifestyle modifications and new treatment options

CMA03 Current Assessment and Treatment of Postmenopausal Osteoporosis ** See page 12

Dale W. Stovall, MD
University of Virginia School of Medicine, Charlottesville, Virginia

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the current methods available to assess a postmenopausal woman's risk for an osteoporosis-related fracture
• Describe the FRAX algorithm and when to use it
• Discuss the efficacy and side effects of the various treatments available to treat women with postmenopausal osteoporosis

CMA04 LARC in 2012: Getting the Most from IUDs and Implants

Eve Espey, MD MPH
University of New Mexico School of Medicine, Albuquerque, New Mexico

Course Objectives
At the end of this course, the learner should be able to:
• Describe candidates for IUDs and implants and appropriate timing of insertion
• Discuss the newly published U.S. Medical Eligibility Criteria for contraceptive use
• List management options for common side effects or complications of IUDs and implants
### CLINICAL SEMINARS

#### CMA05  The Great Mimic of Presumed Gynecologic Pelvic Pain-Interstitial Cystitis and Myofascial Pain  **See page 12**

Mary T. McLennan, MD  
Saint Louis University School of Medicine, St Louis, Missouri

Fah Che Leong, MD  
Saint Louis University School of Medicine, St Louis, Missouri

**Course Objectives**  
At the end of this course, the learner should be able to:
- Distinguish between recurrent UTIs and IC
- Develop rationale of when/who to investigate
- Develop treatment algorithm for IC based on current evidence
- Evaluate for musculoskeletal pain
- Describe different treatment options for myofascial pain

#### CMA06  Managing Prolapse in the Frail and Elderly  **See page 12**

Gary Sutkin, MD  
University of Pittsburgh School of Medicine, Pittsburgh, Pennsylvania

**Course Objectives**  
At the end of this course, the learner should be able to:
- Counsel patients on pessary fitting and the impact on pelvic symptoms
- Identify patients in whom will fail pessaries and the complications of long-term use
- Describe the variations of vaginal closure procedures
- Predict how surgical correction will affect quality of life, bladder and bowel function, and regret

#### CMA07  Anomalies Which Should Not Be Missed By Ultrasound

Daniel W. Skupski, MD  
New York Hospital Queens, Weill Medical College of Cornell University, New York, New York

Stephen T. Chasen, MD  
New York Presbyterian Hospital, Weill Medical College of Cornell University, New York, New York

**Course Objectives**  
At the end of this course, the learner should be able to:
- Identify the major anomalies identifiable with ultrasound during the second - trimester examination
- Identify the major anomalies identifiable during the first trimester when ultrasound examinations are performed
- Discuss the differential diagnosis of abnormalities diagnosable in multiple gestations
- List the limitations of diagnosing fetal anomalies with ultrasound

#### CMA08  Techniques in Abdominal Wound Closure

Joel Sorosky, MD  
University of Connecticut Health Center, Hartford, Connecticut

**Course Objectives**  
At the end of this course, the learner should be able to:
- Review the anatomic considerations of wound closure
- Explain the physiologic considerations of wound closure
- Discuss the clinical implications of wound closure
CLINICAL SEMINARS

CMA09  Shoulder Dystocia: How to Take the Fear Out of the Management **See page 12

Ronald T. Burkman, Jr, MD
Tufts University School of Medicine, Springfield, Massachusetts

Course Objectives
At the end of this course, the learner should be able to:
- List the key risk factors for shoulder dystocia
- Describe the various release maneuvers used in resolving the complication
- Describe strategies that can improve clinical management and reduce the occurrence of brachial plexus injury

CMA10  Contemporary Approach to Diabetes in Pregnancy

Deborah L. Conway, MD
University of Texas School of Medicine - San Antonio, San Antonio, Texas

Course Objectives
At the end of this course, the learner should be able to:
- Discuss the bases for recommending new glucose tolerance test thresholds for pregnancy
- Describe the evidence for and against the treatment of gestational diabetes
- Make an evidence-based decision regarding which oral or injectable medications are appropriate to utilize during pregnancy

CMA11  Induction of Labor: Present Concerns and Future Strategies

William F. Rayburn, MD, MBA
University of New Mexico School of Medicine, Albuquerque, New Mexico

Course Objectives
At the end of this course, the learner should be able to:
- Contrast methods for cervical ripening
- Add perspective to recently published investigations
- Explain present concerns about inductions
- Propose strategies to reduce these concerns

MONDAY, MAY 7
2:30 PM - 3:30 PM

CMP12  Update on Perinatal Infections **See page 12

Laura E. Riley, MD
Massachusetts General Hospital, Boston, Massachusetts

Course Objectives
At the end of this course, the learner should be able to:
- Triage and treat influenza during pregnancy
- Screen, counsel, and treat pregnant women with hepatitis C
- Manage chorioamnionitis and urinary tract infections during pregnancy with an emphasis on the CDC GBS guidelines

CMP13  Prenatal Genetic Screening **See page 12

Mark I. Evans, MD
Mount Sinai School of Medicine, New York, New York

Course Objectives
At the end of this course, the learner should be able to:
- Identify improvements in screening for mendelian and chromosomal disorders
- Identify improvements in the safety of diagnostic procedures
- Identify the incorporation of molecular diagnostics such as microarrays into obstetric practice
## CLINICAL SEMINARS

### CMP14  
**What’s Up Down There? A Review of Vulvar Dystrophies**

Cherie A. LeFevre, MD  
Saint Louis University School of Medicine, St. Louis, Missouri

**Course Objectives**  
At the end of this course, the learner should be able to:  
- Discuss the categories of vulvar dystrophies  
- Discuss the diagnosis of vulvar dystrophies  
- Discuss the treatment of vulvar dystrophies

### CMP15  
**Don’t Believe Everything You Read **See page 12**

James R. Scott, MD  
University of Utah, Salt Lake City, Utah

**Course Objectives**  
At the end of this course, the learner should be able to:  
- Explain evidence-based medicine  
- Assess the validity of new treatments  
- Apply best-evidence in clinical practice

### CMP16  
**Managing Infertility Without IVF: The Old Fashioned Way**

Michael F. Thomure, MD  
Saint Louis University, Saint Mary’s Health Center, St. Louis, Missouri

**Course Objectives**  
At the end of this course, the learner should be able to:  
- Discuss the rationale for an infertility workup and be able to appropriately evaluate the infertile couple  
- Perform and interpret the most appropriate diagnostic tests used in the evaluation process  
- Appropriately treat the most common problems seen in infertile couples

### CMP17  
**Selecting a Urinary Incontinence Procedure**

Mary T. McLennan, MD  
Saint Louis University School of Medicine, St Louis, Missouri

**Course Objectives**  
At the end of this course, the learner should be able to:  
- List the different surgical options available for the treatment of urinary incontinence  
- Develop an algorithm for the indications for the different procedures  
- Identify the short - and long - term outcomes  
- Compare and contrast complications and develop techniques to avoid them

### CMP18  
**Contraception for the Complex Patient—Interactive Case Discussions**

Janice L. Bacon, MD  
Women’s Health and Diagnostic Center, West Columbia, South Carolina

**Course Objectives**  
At the end of this course, the learner should be able to:  
- Assess the risks and benefits of contraceptive prescribing for women with chronic medical conditions  
- Employ contraceptive methods for regulating menses and reducing cyclic-related medical events  
- Evaluate the use of menstrual suppression to assist in the management of medical disorders in females
CLINICAL SEMINARS

CMP19  SSRI During Pregnancy: Fact vs. Fiction
David E. Abel, MD
Deaconess Medical Center, Spokane, Washington

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the risks and benefits of SSRI use during pregnancy
• Describe how to document the discussion of SSRI use with the patient
• Discuss the potential negative effects of stopping SSRIs during pregnancy

CMP20  Crime Scene to Courtroom - The Forensic Evaluation of the Sexual Assault Victim **See page 12
Randall L. Brown, MD
Rape Crisis Center, Office of the District Attorney, Baton Rouge, Louisiana

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the basics of crime scene analysis
• Discuss proper collection of forensic evidence
• Discuss special forensic techniques and photography
• Perform a comprehensive forensic examination
• Identify traumatic wounds

TUESDAY, MAY 8
2:30 PM - 3:30 PM

CTP21  An Update on Sexually Transmitted Diseases and Vaginitis **See page 12
Kevin A. Ault, MD
Emory University School of Medicine, Atlanta, Georgia

Course Objectives
At the end of this course, the learner should be able to:
• Identify treatment options for vaginitis as well as potential approaches to recurrent cases
• Analyze antibiotic resistance trends in relevant microorganisms such as trichomonas and gonorrhea
• Outline national recommendations for the screening of adolescents and young women for chlamydia, as well as non-pregnant women for HIV
• Review recent developments in vaginitis and sexually transmitted diseases such as prevention of transmission and vaccine development
• Identify aspects of these infections that are unique to women's health, such as perinatal transmission and potential links to long-term sequelae such as infertility and neoplasia

CTP22  What's New for Uterine Fibroids
Charles M. March, MD
California Fertility Partners and the Keck School of Medicine of the University of Southern California, Los Angeles, California

Course Objectives
At the end of this course, the learner should be able to:
• Identify the relative merits of various traditional methods of treating leiomyomata uteri
• Discuss newer technologies, including some that are still investigational
May 5 - 9, 2012 • San Diego Convention Center

CLINICAL SEMINARS

CTP23  Cervical Insufficiency and Treatment: An Evidence-Based Review

Vincenzo Berghella, MD
Thomas Jefferson University, Philadelphia, Pennsylvania

Course Objectives
At the end of this course, the learner should be able to:
• List the technical aspects of cerclage proven to be efficacious
• Evaluate the effectiveness of history-indicated, ultrasound-indicated, and physical exam-indicated cerclage
• Review complications of cervical cerclage

CTP24  Inherited Breast and Gynecologic Cancer: What You Need to Know in 2012 **See page 12

Noah D. Kauff, MD
Memorial Sloan-Kettering Cancer Center, New York, New York

Course Objectives
At the end of this course, the learner should be able to:
• Implement the current ACOG guidelines identifying women who should be considered for genetic risk assessment of hereditary breast and ovarian cancer
• Choose among available options for the management of women with an inherited predisposition towards cancer
• Discuss recent advances in the development of targeted therapies for inherited ovarian and fallopian tube cancers

CTP25  Best Practice Considerations in Managing Fetal Growth Restriction

Dev Maulik, MD
University of Missouri Kansas City School of Medicine, Kansas City, Missouri

Course Objectives
At the end of this course, the learner should be able to implement a best practice approach for:
• Prenatal diagnosis of fetal growth restriction
• Fetal surveillance and intervention in managing pregnancies complicated with fetal growth restriction

CTP26  Thinking of Being a Hospitalist - What You Need to Know **See page 12

Robert O. Olson, Jr, MD
OB Hospitalist Group, Inc., Bellingham, Washington

Course Objectives
At the end of this course, the learner should be able to:
• Decide if he/she wants to become a hospitalist
• Discuss how to find a job
• Compare working conditions and compensation
• Discuss advantages of becoming an Ob/Gyn hospitalist: how to find a job, lifestyle, hours, pay, employee versus being an independent contractor, and commuting to work
• Discuss disadvantages: losing gyn surgical skills, lack of continuity with private patients, and long shifts
• Discuss what employers are looking for when hiring a new Ob/Gyn hospitalist
CLINICAL SEMINARS

CTP27  The SBIRT Model, Screening for and Managing Substance Use in Practice **See page 12

Tricia E. Wright, MD
University of Hawaii, Honolulu, Hawaii
Mishka Terplan, MD, MPH
University of Maryland, College Park, Maryland

Course Objectives
At the end of this course, the learner should be able to:

- Discuss the importance of screening all women of childbearing age for substance use
- Incorporate validated screening tools into clinical visits
- Identify motivational interviewing techniques so that a positive screen doesn’t throw the entire office schedule into disarray

CTP28  Sexuality in the Elder Woman **See page 12

Bruce B. Ettinger, MD
Los Angeles County Department of Public Health, Los Angeles, California

Course Objectives
At the end of this course the learner should be able to formulate an action plan to address sexual activity in older women by:

- Legitimizing the elder patient’s sexuality, sexual desire, and changing sexual expressions
- Integrating the physiology and pathophysiology of aging, with underlying clinical, psychological, and emotional disorders, including the effect of associated treatments and medications
- Debunking myths and stereotypes and mitigating societal and social expectations of the elder woman’s sexualit, to include culture and ethnicity, life events and transitions, changing heirarchy of needs, and adult children’s expectations of their parents
- Incorporating the elder woman’s living, environmental, and social factors that affect her sexual expressions and activities, eg, with or without a partner, living at home or under supervised care
- Educating the patient, her partner, her children, and non-family caregivers – what/what not to expect

CTP29  Medical Management of Spontaneous and Elective Abortion

Sarah W. Prager, MD
University of Washington, Seattle, Washington

Course Objectives
At the end of this course, the learner should be able to:

- Discuss the evidence-based regimen used for medical management of spontaneous and elective abortion
- Identify good candidates for medical management of spontaneous and elective abortion
- Discuss the evidence around antibiotic use with medical management of spontaneous and elective abortion
## INTERACTIVE SESSIONS

### MONDAY, MAY 7

**IS01**  
**Vulvar Diseases: What Do You Know?**  
**See page 12**

<table>
<thead>
<tr>
<th>Time</th>
<th>11:00 AM - 12:30 PM</th>
</tr>
</thead>
</table>

Hope K. Haefner, MD  
University of Michigan Center for Vulvar Diseases/University of Michigan Hospitals, Ann Arbor, Michigan

Lynette J. Margesson, MD  
Dartmouth-Hitchcock Medical Center, Lebanon, New Hampshire

**Course Objectives**

At the end of this course, the learner should be able to:

- Identify the clinical features of various vulvovaginal conditions
- Identify the gross features of non-neoplastic epithelial disorders of the vulva
- Identify the various ulcerative conditions of the vulva and the management for each
- List a variety of treatments for skin diseases

**IS02**  
**Blood Disorders in Pregnancy and Thromboembolism**

<table>
<thead>
<tr>
<th>Time</th>
<th>2:30 PM - 4:00 PM</th>
</tr>
</thead>
</table>

Michael J. Paidas, MD  
Yale University School of Medicine, New Haven, Connecticut

Charles J. Lockwood, MD  
The Ohio State University School of Medicine, Columbus, Ohio

**Course Objectives**

At the end of this course, the learner should be able to:

- Identify coagulation changes associated with pregnancy
- Describe the associations between maternal thrombosis, placenta-mediated complications, and inherited and acquired thrombophilias
- Identify who needs prophylaxis or treatment surrounding pregnancy
- Describe the contemporary evaluation and management of pulmonary embolism in pregnancy

### TUESDAY, MAY 8

**IS03**  
**The Pelvic Mass: Strategies for Providing Optimum Care and Avoiding Nasty Surprises**

<table>
<thead>
<tr>
<th>Time</th>
<th>9:15 AM - 10:45 AM</th>
</tr>
</thead>
</table>

R. Kevin Reynolds, MD  
University of Michigan Hospital, Ann Arbor, Michigan

**Course Objectives**

At the end of this course, the learner should be able to:

- Develop a realistic differential diagnosis for a pelvic mass
- Order the most appropriate tests for treatment planning
- Counsel accurately the patient and plan the appropriate surgical procedure
- Describe a methodical operative approach to determine the extent of surgery

**IS04**  
**Contraception: What You Need to Know in 2012**

<table>
<thead>
<tr>
<th>Time</th>
<th>11:00 AM - 12:30 PM</th>
</tr>
</thead>
</table>

Tony Ogburn, MD  
University of New Mexico School of Medicine, Albuquerque, New Mexico

Eve Espey, MD, MPH  
University of New Mexico School of Medicine, Albuquerque, New Mexico

**Course Objectives**

At the end of this course, the learner should be able to:

- Discuss the factors that contribute to unintended pregnancy in the United States
- Utilize the new CDC U.S. Medical Eligibility Criteria for contraceptive use
- List the risks and benefits of long acting reversible contraceptives (LARCs), extended dose regimens, and hysteroscopic sterilization
- Discuss strategies to reduce barriers to contraceptive initiation and continuation
INTERACTIVE SESSIONS

IS05  Contemporary Management of the Pap Test: Navigating the Practice Guidelines from the College and ASCCP  **See page 12

2:00 PM - 3:30 PM

Alan G. Waxman, MD, MPH
University of New Mexico School of Medicine, Albuquerque, New Mexico

Teresa M. Darragh, MD
University of California at San Francisco, San Francisco, California

Course Objectives
At the end of this course, the learner should be able to:
- Compare ACOG guidelines for cervical cytology screening with new recommendations from the U.S. Preventive Services Task Force and the American Cancer Society
- Discuss the differences between adolescents and adults regarding recommended cervical cancer screening and management of abnormal Pap tests
- Review the uses and misuses of HPV DNA testing in cervical cancer screening
- Use ACOG's and ASCCP's guidelines to manage women with abnormal Pap test results
BROWN BAG SEMINARS

MONDAY, MAY 7
12:15 PM – 1:30 PM

BBM01  Viral Infections in Pregnancy **See page 12

Stanley A. Gall, MD
University of Louisville School of Medicine, Louisville, Kentucky

Course Objectives
At the end of this course, the learner should be able to:
• Discuss the dynamics of cytomegalovirus infection during pregnancy
• Describe the management of parvovirus B-19 infection in pregnancy
• Determine the appropriate management of herpes simplex virus infection during pregnancy and delivery

BBM02  Maintaining Midlife Mood, Mind, and Memory: Therapeutic Options

Sarah L. Berga, MD
Wake Forest Baptist Health, Winston-Salem, North Carolina

Course Objectives
At the end of this course, the learner should be able to:
• Outline important effects of sex steroids upon brain
• Delineate biological mechanisms mediating effects of hormones upon brain
• Consider how the aging process modifies the effects of hormones on brain
• Identify what is known and not known about the neuroprotective effects of estrogens, SERMs, and progestins

BBM03  Cord Blood 2012: Sense and Nonsense **See page 12

Men-Jean Lee, MD
Indiana University School of Medicine, Indianapolis, Indiana

Course Objectives
At the end of this course, the participant should be able to:
• Describe and distinguish real and proposed uses for umbilical cord blood
• Evaluate the likelihood that an individual’s cord blood will be used and counsel patients about the process
• Discuss the relevant principles underlying the ethical use and promotion of cord blood banking
**BBM04  Cosmetic Surgery for the Gynecologist**

**Moderator:**
Joel I. Polin, MD
Abington Memorial Hospital, Abington, Pennsylvania

**Panelists:**
“Pro-Cosmetic” Surgery Viewpoint
Marco Antonio Pelosi III, MD
Pelosi Medical Center, Bayonne, New Jersey

At the end of this session, the learner should be able to:
- Discuss the distinction between cosmetic surgery and plastic surgery
- List common motivations of women seeking cosmetic procedures
- Discuss the Ob-Gyn’s unique role in delivering well-woman care, including aesthetics
- Discuss the level of postgraduate education, training, and experience demanded of a competent cosmetic surgeon

“Middle of the Road” Cosmetic Surgery Viewpoint
Barbara S. Levy, MD
Franciscan Health System, Tacoma, Washington

Course Objectives
At the end of this session, the learner should be able to:
- Discuss the role of gynecologists in providing cosmetic care for patients
- Discuss the ethical guidelines for offering cosmetic surgery within a gynecology practice

“Con” Cosmetic Surgery Viewpoint
Erin E. Tracy, MD MPH
Massachusetts General Hospital, Boston, Massachusetts

At the end of this session, the learner should be able to:
- Discuss the limitations of the literature regarding “cosmogynecology”
- Review ethical principles surrounding the practice of medicine and their relationships to elective surgery
- Consider potential complications of elective cosmetic gynecologic surgery

**Cosmetic Surgery for the Gynecologist--Ethics**
Marianne L. Burda, MD PhD
Duquesne University, Pittsburgh, Pennsylvania

At the end of this session, the learner should be able to:
- Identify ethical issues associated with performing cosmetic surgery
- Apply ethical principles to counseling patients about cosmetic surgery
- Locate available resources to assist in determining whether performing cosmetic surgery is appropriate for the practice

---

**TUESDAY, MAY 8**

12:15 PM – 1:30 PM

**BBT01  Health Care Legislation: 2012 Challenges for Ob-Gyns**

Lucia DiVenere
American Congress of Obstetricians and Gynecologists, Washington, DC

Course Objectives
At the end of this course, the learner should be able to:
- Identify three goals of ACOG’s MOMS Legislative Campaign to ensure healthy mothers and babies
- Describe two payment changes ob-gyns will see under the health reform law
- Identify what leadership position in ACOG serves as Chair of ACOG’s Government Affairs Committee
### BROWN BAG SEMINARS

#### BBT02  Maintenance of Certification (MOC) **See page 12**

Larry C. Gilstrap III, MD  
American Board of Obstetrics and Gynecology, Dallas, Texas  

Kenneth L. Noller, MD, MS  
American Board of Obstetrics and Gynecology, Dallas, Texas  

**Course Objectives**

At the end of this course, the learner should be able to:

- List the requirements for maintenance of certification (MOC) mandated by the American Board of Medical Specialists
- Know where to find information about MOC, when they should enroll in the process, and how to enroll
- Comprehend the 6-year cycle and the four components of MOC:  (1) Professional Standing, (2) ABC/Continuous Life-Long Education/Learning, (3) Cognitive Expertise (secure written exam) and (4) Practice Performance (self-assessment modules)

#### BBT03  Late-Breaking News (AAGL, SGO, SMFM, AUGS, SREI)

Experts representing most aspects of obstetrics and gynecology and subspecialities will be available to present these data to the general membership. We anticipate updated information from ongoing research and innovations in their field of expertise. We expect that these updates will be of great interest to our membership and have a significant impact on the future of women’s health.

**Moderator:**  
L. Chesney Thompson, MD  
University of Colorado, Denver, Aurora, Colorado  

Representative from the American Association of Gynecologic Laparoscopists  
Representative from the Society of Reproductive Endocrinology and Infertility  
Representative from the Society of Gynecologic Oncologists  
Representative from the American Urogynecologic Society  
Representative from the Society for Maternal-Fetal Medicine

#### BBT04  Making the Connection: Reproductive Health and Partner Violence **See page 12**

Eve Espey, MD MPH  
University of New Mexico School of Medicine, Albuquerque, New Mexico  

Rebecca Levenson  
Futures Without Violence, San Francisco, California  

**Course Objectives**

At the end of this course, the learner should be able to:

- Discuss the concept of reproductive coercion and its relationship to intimate partner violence  
- Explain strategies in the identification of victims of reproductive coercion  
- Describe approaches to assist women in coercive relationships to optimize their reproductive health status
# LUNCH WITH THE EXPERTS

**MONDAY, MAY 7**

**12:15 PM – 1:30 PM**

CURRENT ISSUES UPDATES

MONDAY, MAY 7
2:00 PM - 3:00 PM

CIU01  Work Force Issues Affecting Obstetrician-Gynecologists

Moderator:
William F. Rayburn, MD, MBA
University of New Mexico School of Medicine, Albuquerque, New Mexico

Course Objectives
At the end of this course, the learner should be able to:
- Discuss the pursuit of subspecialties by graduating residents
- Determine accessibility by patients to obstetrician-gynecologists
- Examine generational differences between obstetrician-gynecologists

TUESDAY, MAY 8
1:45 PM - 2:45 PM

CIU02  Promoting Women Leaders in ACOG: You CAN Get There From Here

Moderators:
Eve Espey, MD MPH
University of New Mexico School of Medicine, Albuquerque, New Mexico
Cynthia A. Brincat, MD PhD
Madison, Wisconsin
Vivian M. Dickerson, MD
Orange, California

Course Objectives
At the end of this course, the learner should be able to:
- Identify barriers to women leaders in ACOG
- Describe strategies on the personal and organizational levels to promote women leaders

WEDNESDAY, MAY 9
7:30 AM - 8:30 AM

CIU03  The Impact of the Affordable Care Act on Ob/Gyn Practice

Moderator:
Michael S. Policar, MD
University of California—San Francisco, San Francisco, California

Course Objectives
At the end of this course, the learner should be able to:
- List the three sequential steps to achieve full implementation of the Affordable Care Act (ACA)
- List three components of the Affordable Care Act that will directly affect women’s health care providers
- List eight preventive services recommended by the Institute of Medicine (IOM) to be available to women as health insurance benefits without cost sharing
- Explain three differences between a family planning Medicaid 1115 waiver and a family planning state plan amendment (SPA)
LIVE TELESURGERY SESSION

TUESDAY, MAY 8
10:00 AM - 12:30 PM

TL01  Practical Pelvic Anatomy

The College is pleased to present a special telesurgery program that will provide detailed cadaveric dissection, visualizing front and lateral views of anatomical structures commonly accessed during pelvic surgery. Participants will have an opportunity to interact with the surgeons. This course is limited to professional attendees and has limited seating. There is a charge of $35 for this session, and tickets are required.

Andrew C. Steele, MD
Saint Louis University School of Medicine, St Louis, Missouri

Fah Che Leong, MD
Saint Louis University School of Medicine, St. Louis, Missouri

C. William Helm, MD
Saint Louis University School of Medicine, St. Louis, Missouri

Mary H. Schwartz, MD
Saint Louis University School of Medicine, St Louis, Missouri

Gregory Smith, PhD
Saint Louis University School of Medicine, St Louis, Missouri

Patrick P. Yeung, Jr., MD
Saint Louis University School of Medicine, St Louis, Missouri

Course Objectives
At the end of this session, the learner should be able to:

• Identify pertinent pelvic anatomy, through detailed cadaveric dissection supplemented by anatomic illustrations and videos
• Discuss how these structures relate to one another through direct visualization from both the transvaginal and transabdominal approaches
• Perform laparoscopic, open, and vaginal procedures more safely and confidently by learning practical surgical pointers related to pelvic anatomy
• Incorporate deeper knowledge of the anatomic relationships of the urinary tract, vasculature, and pelvic support into their practice in order to avoid intra-operative pitfalls and maximize clinical outcomes
MEDICAL STUDENT ACTIVITIES

Don't miss out on these exclusive Medical Student events at the Annual Clinical Meeting! All Medical Student Activities will be held at the Hilton San Diego Bayfront Hotel.

Questions?
Contact: Katherine Miller
Manager of Medical Student Affairs
E-mail: kmiller@acog.org
Phone: (202) 863-2532

SUNDAY, MAY 6

MSRT1 ❖ 1:00 PM - 3:00 PM

MEDICAL STUDENT WORKSHOP #1-ROUNDTABLE
Session A: Preparing Your CV and Personal Statement: A Primer for Applying to Ob/Gyn Residency
Session B: Finding the Shoes that Fit: Asking the Right Questions to Find the Residency Program That's Right for You

MSHO1 ❖ 3:00 PM - 6:00 PM

MEDICAL STUDENT WORKSHOP #2-HANDS-ON SKILL SESSION
MUST BE REGISTERED-SPACE IS LIMITED
Hands-On introductory skills workshop, including knot tying, obstetric vaginal delivery simulators, intrauterine contraception insertion simulators, and more! Expanded workshops with new skills stations for a total of 10 ob/gyn specific hands-on simulations for residents.

MONDAY, MAY 7

MSC01 ❖ 1:00 PM - 4:30 PM

THE JOHN M. GIBBONS JR, MD MEDICAL STUDENT LECTURE

Ob/Gyn as a Career: Residency Training and Dimensions of Practice

Please join lecture directors Dr. Patrick Ramsey and Dr. Sarah Page for this program designed specifically for medical students. The lecture features panel discussions providing insight into what it takes to succeed in Ob/Gyn clerkships, sub-internships, residency selection, residency interviewing, and in Ob/Gyn residency/fellowship. The first panel will discuss ob-gyn as a career, with individual commentary followed by open discussion. The second panel will discuss what it takes to secure and succeed in an ob/gyn residency, followed by open discussion.

Course Objectives
• Provide a forum for medical students to interact and network with other medical students, ob/gyn residents, subspecialty fellows, faculty, and program directors.

MEDICAL STUDENT, JFCAC, AND YOUNG PHYSICIAN RECEPTION

❖ 5:30 PM - 7:00 PM
Join fellow medical students, residents, and young physicians for cocktails and conversation with ACOG Fellows and staff. Don't miss this opportunity to mingle and network with College members in various stages of practice.

TUESDAY, MAY 8

OB/GYN RESIDENCY FAIR (MSRF1)

❖ 1:00 PM - 4:00 PM
Representatives from forty plus Ob/Gyn residency programs from across the country are scheduled to attend the 6th Annual Residency Fair. Join us for this wonderful opportunity to meet and talk with representatives from different programs!
Two sessions of papers on current clinical and basic investigation will be held in the San Diego Convention Center. Each paper will be limited to a 7-minute presentation and will be followed by a 3-minute informal question and answer session moderated by a prominent specialist in the field.

Donald F. Richardson Memorial Prize Papers:
Two Junior Fellow Prize Papers will be presented on Tuesday. The winners of both papers will be listed in the final program.

Committee on Scientific Program Awards:
The Committee on Scientific Program presents the Papers on Current Clinical and Basic Investigation prize awards to the recipients at the Annual Business Meeting.

**MONDAY, MAY 7**
**2:00 PM – 4:00 PM**

**- Accuracy of Providers’ Assessment of Pain during IUD Insertion**
Karla Maguire, MD, MPH  
University of Miami, Miller School of Medicine, Miami, Florida

Kathleen Morrell, MD; Anne Davis, MD, MPH

**- The Pharmacokinetic Profile of a Low-Dose Contraceptive Patch is Equivalent at Three Anatomical Site**
Frank Z. Stanczyk, PhD  
University of Southern California, Los Angeles, California

David F. Archer, MD; Marie Foegh, MD

**- Risk of VTE in Users of an Etonogestrel Containing Vaginal Ring and Combined Oral Contraceptives**
Juergen Dinger, MD, PhD  
ZEG - Berlin Center for Epidemiology and Health Research, Berlin, Germany

Albert A. Pineda, MD

**- Outcomes of Phone versus Office Follow-up after Medical Abortion**
Diana W. Samberg, MS  
University of Pittsburgh School of Medicine, Pittsburgh, Pennsylvania

**- A Virtual Reality Robotic Surgery Simulator: A Learning Curve Analysis of Gynecology Trainees**
Ana I. Tergas, MD, MPH  
Johns Hopkins Hospital/Greater Baltimore Medical Center, Baltimore, Maryland

Sangini S. Sheth, MD, MPH; Amanda Nickles Fader, MD

**- Analysis of Tranexamic Acid Efficacy in Women with Heavy Menstrual Bleeding Across Patient Types**
Jeffrey Baker, MD  
Rosemark Women Care Specialists, Idaho Falls, Idaho

Scott Eder, MD; Tammie Adomako, MD

**- A Cost-Effective Analysis of Male Circumcision for the Prevention of HIV in the United States**
Sarah Drennan, MD  
Ochsner Clinic Foundation, New Orleans, Louisiana

Rajiv B. Gala, MD

**- Chlamydia Trachomatis Rates in the U.S.: Women over Age 25 May Still be at Risk**
Mark G. Martens, MD  
Jersey Shore University Medical Center, Neptune, New Jersey

Romeo Lucas, DO; Allison Coyle, DO

**- Long-Term Endometrial Safety Assessment of Ospemifene in Post-Menopausal Women with VVA**
Steven R. Goldstein, MD  
New York University School of Medicine, New York, New York

Subhash Chandra, MBBS

**- Epidural Prior to 4-cm Dilation and Risk of C-Section in a Population Undergoing Induction of Labor**
Monica Rincon, MD  
Oregon Health and Science University, Portland, Oregon

Katherine M. Gesteland, MD, MSPH; Hong Li, MD, MS
CURRENT CLINICAL PAPERS
TUESDAY

TUESDAY, MAY 8
2:00 PM – 4:00 PM

- Is there a Role for Conservative Treatment of Appendicitis in Pregnancy?
  Reza Kermani, MD
  Steward St. Elizabeth's Medical Center, Boston, Massachusetts
  Katherine Matta, MD; Anjan K. Chaudhury, MD

- Does Increase in Birth Weight Change the Normal Labor Curve?
  Heidi K. Leftwich, DO
  University of Illinois, Chicago, Illinois
  Weihua Gao, MS; Isabelle Wilkins, MD

- Timing and Consequences of Early Term and Term Elective Delivery
  Jasbir Singh, MD
  Washington Hospital System, Washington, DC
  Christopher Zahn, MD; Rita W. Driggers, MD

- Biomarkers Help Predict Successful Early Pregnancy Failure Management with Single-Dose Misoprostol
  Kelly E. Quinley, BA
  Perelman School of Medicine at the University of Pennsylvania, Philadelphia, Pennsylvania
  Sarah J. Ratcliffe, PhD; Courtney A. Schreiber, MD, MPH

- Agreement Between 12-vs. 24-hour Urine Protein Collections in Patients with Suspected Preeclampsia
  James T. Kurtzman, MD
  Loma Linda University Medical Center, Loma Linda, California
  Emily Wu, MD; Deborah Cebrick, MD

- Provider Adherence to New Guidelines for Abnormal Pap Test Management in Adolescents
  Rebecca B. Perkins, MD, MSc
  Boston University School of Medicine/ Boston Medical Center, Boston, Massachusetts
  Jennifer R. Jorgensen, MD; Karen M. Freund, MD, MPH

- Impact of a Single-Session Psychosocial Counseling Intervention for Women with Vulvodynia
  Molly B Moravek, MD, MPH
  University of Michigan Health Systems, Ann Arbor, Michigan
  Laurie Legocki, PhD; Hope Haefner, MD

- A New Screening Test for Endometrial Cancer? Cytology Analysis of Sonohysterography Distention Media
  David M. Kushner, MD
  University of Wisconsin School of Medicine and Public Health, Madison, Wisconsin
  Susan M. Sheridan, MD; James L. Hinshaw, MD

- Ovarian Carcinoma and Germline Mutations in BRCA1/2; High-grade Serous Histologic Subtype is the Key
  Kasmintan A. Schrader, MBBS
  University of British Columbia, Vancouver, British Columbia, Canada
  C. Blake Gilks, MD; Jessica N. McAlpine, MD

- Should Every Pregnant Woman in a High Risk Neighborhood have a Home Lead Hazard Risk Assessment?
  Gross A. Gilad, MD
  St. Louis University, St. Louis, Missouri
  Daniel R. Berg, MD, MPH; Matt Steiner, MPH, MSW
BUSINESS MEETINGS

COUNCIL OF DISTRICT CHAIRS
(By Invitation Only)
The Council of District Chairs will meet on Thursday, May 3, from 3:00 PM to 6:00 PM at the Hilton San Diego Bayfront Hotel.

CONGRESS AND COLLEGE EXECUTIVE BOARDS
(By Invitation Only)
The Congress and College Executive Boards will meet on Friday, May 4, from 8:00 AM to 5:00 PM in the Hilton San Diego Bayfront Hotel. They will also meet Wednesday afternoon, May 9, from 5:30 PM - 6:30 PM.

JUNIOR FELLOW CONGRESS ADVISORY COUNCIL (JFCAC) MEETING
(By Invitation Only)
The Junior Fellow Congress Advisory Council will meet on Saturday, May 5, from 8:00 AM to 4:00 PM at the Hilton San Diego Bayfront Hotel. Breakfast and lunch will be served during the meeting.

PAST PRESIDENTS BUSINESS FORUM
(By Invitation Only)
The Past Presidents Business Forum is scheduled for Monday, May 7, 7:00 PM.

DISTRICT ADVISORY COUNCIL MEETINGS
(By Invitation Only)
Several districts will hold Advisory Council Meetings on Sunday, May 6. Please consult the Ancillary Meetings section for the locations and times of these meetings.

CONGRESS ADVISORY COUNCIL MEETING
The Congress Advisory Council (CAC) consists of national, district and section officers of the Congress and the College, past presidents, members of the Junior Fellow Congress Advisory Council, and committee chairs of the Congress and College. The Council will meet on Sunday, May 6, from 2:00 PM to 5:00 PM at The Hilton San Diego Bayfront Hotel. The Awards Ceremony, honoring Research Fellowship Recipients as well as other distinguished Fellows, will open the meeting. All Congress and College members are invited to attend.

YOUNG PHYSICIAN LEADERSHIP COUNCIL
(By Invitation Only)
The 3rd Annual Young Physician Leadership Council will convene on Sunday, May 6, from 5:00 PM to 7:00 PM at The Hilton San Diego Bayfront Hotel. This will be a planning session of current District Advisory Council young physician representatives.

ANNUAL BUSINESS MEETINGS
The Annual Business Meeting of the American Congress of Obstetricians and Gynecologists and the Election of Officers of the Congress will be held on Monday, May 7, at 11:00 AM at the San Diego Convention Center, followed by an informational meeting on the activities of the American College of Obstetricians and Gynecologists. National officers will be elected at the Congress Meeting; year-end reports will be presented at each meeting. All Fellows are encouraged to attend both meetings.

SILVER BADGE CLUB LUNCHEON
(By Invitation Only)
The Silver Badge Club will meet on Tuesday, May 8, from 12:00 PM to 2:00 PM at The Hilton San Diego Bayfront Hotel.

NATIONAL OFFICER CANDIDATES FORUM
The National Officer Candidates Forum is scheduled for Wednesday, May 9, at 1:30 PM at the Hilton San Diego Bayfront Hotel. The candidates for national office for May 2013 to May 2014 will make presentations to all Congress and College members. The members of the national Committee on Nominations, including first and second alternates, are required to attend.
ANCILLARY MEETINGS

All Ancillary Meetings will be held at the Hilton San Diego Bayfront Hotel.

**THURSDAY, MAY 3**
- 3:00 PM – 6:00 PM
  - Council of District Chairs (CDC) Meeting

**FRIDAY, MAY 4**
- 8:00 AM – 5:00 PM
  - College and Congress Executive Board Meetings

**SATURDAY, MAY 5**
- 8:00 AM – 9:00 AM
  - JFCAC Annual Meeting – Breakfast
- 9:00 AM – 4:00 PM
  - JFCAC Annual Meeting
- 12:00 PM – 1:00 PM
  - JFCAC Annual Meeting – Lunch

**SUNDAY, MAY 6**
- 7:30 AM – 10:30 AM
  - District IV Junior Fellow Advisory Council Breakfast & Meeting
- 7:30 AM – 12:00 PM
  - District II Fellow Advisory Council Meeting
- 8:00 AM – 10:00 AM
  - District V Junior Fellow Advisory Council Meeting
  - District VII Executive Committee Meeting
  - American Journal of Obstetrics and Gynecology Advisory Committee on Policy Meeting
- 8:00 AM – 12:00 PM
  - District VIII Executive Committee Meeting
  - District IX Executive Committee Meeting
- 9:30 AM – 2:00 PM
  - CDC Maternal Mortality Study Group and ACOG Maternal Mortality Special Interest Group
- 10:00 AM – 12:00 PM
  - District V Fellow Advisory Council Meeting
- 10:00 AM – 3:00 PM
  - Collaborative Action for Safe Mother’s Day - The Hilton San Diego Bayfront Hotel
- 11:30 AM – 2:00 PM
  - District IV Fellow Executive Committee Luncheon and Meeting

- 1:00 PM – 2:30 PM
  - District IX Committee on Patient Safety and Quality Improvement Meeting
- 1:00 PM – 3:00 PM
  - District II Junior Fellow Advisory Council Meeting
  - Medical Student Workshop #1- Roundtables
- 1:00 PM – 6:00 PM
  - Medical Student Workshop #1- Roundtables
  - Medical Student Workshop #2- Hands-On Skill Session
- 2:00 PM – 5:30 PM
  - Congress Advisory Council (CAC) Meeting preceded by the Awards Ceremony
- 5:00 PM – 7:00 PM
  - 3rd Annual Young Physician Leadership Council Meeting

**MONDAY, MAY 7**
- 10:00 AM – 12:00 PM
  - Talking with Your Children About Sexuality
- 12:00 PM – 6:00 PM
  - Oral History Video Project
- 12:30 PM – 1:45 PM
  - McCain Fellow Luncheon
- 1:00 PM – 4:30 PM
  - The Dr. Scott and The Honorable Dr. Nan Hayworth Junior Fellow Course: Preparing for Life After Residency... Transitioning from Training to Practice
- 1:00 PM – 3:00 PM
  - Event for all spouses/partners - The San Diego Wine and Culinary Center
- 4:30 PM – 5:30 PM
  - Fellowship in Family Planning Informational Session
- 5:30 PM – 7:00 PM
  - Medical Student, JFCAC, Young Physician Reception
  - Fifth Annual Loma Linda University School of Medicine Alumni Reception
  - Wayne State University School of Medicine Alumni Reception
- 5:30 PM – 7:30 PM
  - Emory University Reception
  - University of Louisville, University of Kentucky, and Kentucky Section ACOG Alumni Reception
  - University of Wisconsin Ben Miller Peckham Annual Cocktail Reception
ANCILLARY MEETINGS

5:30 PM – 8:00 PM
- Fellowship in Family Planning Reception
- University of Southern California - FROGS Reception

5:30 PM – 8:30 PM
- University of Michigan Department of OB-GYN Reception, Sponsored by Norman F. Miller Society

6:00 PM – 7:30 PM
- University of Wisconsin and Friends Reception

6:00 PM – 8:00 PM
- Indiana Alumni and Friends Reception

6:30 PM – 8:00 PM
- PIROG Alumni Reception

7:00 PM – 9:00 PM
- University of Iowa Department of Obstetrics and Gynecology Reception for Iowa Alumni and District VI Members

7:00 PM – 10:00 PM
- District VII Reception

TUESDAY, MAY 8

6:00 AM – 8:00 AM
- No Woman, No Cry - Maternal Mortality Worldwide

6:30 AM – 8:00 AM
- ACOG Committee on Honors and Recognitions
- AI/AN Women’s Health Breakfast

7:00 AM – 8:30 AM
- Young Physicians Breakfast Forum
- Junior Fellow Breakfast Business Meeting

12:00 PM – 1:00 PM
- Family Planning Residency Informational Session

12:00 PM – 2:00 PM
- Silver Badge Club Meeting Luncheon

12:30 PM – 1:45 PM
- Adolescent Pregnancy Prevention Luncheon

1:00 PM – 4:00 PM
- Ob/Gyn Residency Fair

WEDNESDAY, MAY 9

11:30 AM – 1:00 PM
- Committee on Nominations Luncheon Meeting

1:00 PM – 5:00 PM
- National Officer Candidates Forum Speaker Ready Room

1:30 PM – 5:00 PM
- National Officer Candidates Forum
SPECIAL INTEREST GROUPS

All Special Interest Group meetings are held at the Convention Center unless otherwise noted.

Each Special Interest Group separately arranges presentations in this portion of the program. These presentations are not peer reviewed in advance by members of the Committee on Scientific Program.

❆ TUESDAY, MAY 8
4:30 PM – 6:00 PM

BIOIDENTICAL HORMONES - WHAT YOU AND YOUR PATIENTS NEED TO KNOW
The North American Menopause Society
Moderator: Margery Gass, MD

AGING AND INFERTILITY
Society for the Prevention of Human Infertility
Moderator: Mehrangiz Hatami, MD
Chairman: Masood Khatamee, MD
Presenter: David Keefe, MD

COLLEGE UNIVERSITY OF CHAIRS OF OBSTETRICS AND GYNECOLOGY (CUCOG) ANNUAL MEETING
CUCOG
Moderator: Jonathan Berek, MD

ESTABLISHING A FORUM FOR COMMUNICATION AND COLLABORATION AMONG ACADEMIC GENERALISTS
Academic Generalists in Obstetrics and Gynecology
Moderator: Chuck Hitt, MD
Chairman: Chesney Thompson

**AMERICAN MEDICAL ASSOCIATION ROUNDTABLE
This presentation will take place on Tuesday, May 8, from 11:30 AM - 1:00 PM
GENERAL INFORMATION

College Member Benefits Program:
1. PEARL INSURANCE
The College has negotiated with leading insurance companies to provide valuable insurance plans for our members. Take advantage of all the offered coverages, designed to help assist you in providing financial stability for your family and your practice. Policies available include life, health, and disability insurance - residents are eligible to receive certain coverages at no cost, with policy premiums paid by ACOG. A Pearl Affinity Services representative will be located in the Exhibit Hall.

2. CAREER CONNECTION
Visit the Career Connection job center at the 60th Annual Clinical Meeting and get connected with your future. While you are there, post a resume, search the online job database, or respond to job postings. You may also post job opportunities and search through the resume databank for qualified candidates. Staff will be available to assist you with any questions you may have or to help you with your search.

ACM MESSAGE CENTER
The College will provide a message center during the ACM for you to leave and receive messages. This center will be located in the San Diego Convention Center and will be open during official registration hours.

ACM BOOKSTORE
Stop by the ACM Bookstore at the 60th Annual Clinical Meeting and enter to win a $100 gift certificate! Browse through our full assortment of best-selling and new resources, including our best-selling baby book - Your Pregnancy and Childbirth: Month to Month, Fifth Edition; the 2012 Compendium of Selected Publications CD-ROM; Clinical Updates in Women's Health Care; coding resources (ICD-9-CM, ICD-10-CM & CPT*), and many College surgical videos and CD-ROMs. Conveniently located near the registration area, the ACM Bookstore is open daily. Our courteous staff will assist you whether your purchase is hand-carried or shipped.

ACOG EXHIBIT BOOTH AND COMPUTER LAB
Don't forget to stop by the ACOG Exhibit, which includes the ACOG Computer Lab. The ACOG Exhibit is the one place to obtain information on the many activities of the College. While at the ACM, examine ACOG's redesigned web site and review ACOG’s CD-ROMs. Some of the CD-ROMs available are Contemporary Perspectives on Breast Health; Urogynecology: An Evidence-Based Approach; and From Exam Room to Courtroom. MOC Part III: Sample written exams will be available on computers at the ACOG booth.

On Monday and Tuesday, May 7 and 8, ACOG Fellows Edward Zabrek, MD, the medical editor of iPhone Life Magazine, and Brian A. Levine, MD, MS, will demonstrate the latest handheld computers and mobile devices. Handheld devices will also be available for physicians to experience the latest medical computing technology.

On Wednesday, May 9, at 12:30 PM, the ACOG Booth will be the venue for the 3rd Annual Historical Film Festival. This year staff will screen a film from Dr. Joseph B. DeLee's films from the College film archive.

Staff from various committees and programs will be on hand to provide members with information and answer questions about services and development of guidelines.

College and Congress publications and products will be on display and samples of many of the patient education pamphlets will be available. Editors and staff from Obstetrics & Gynecology will be present to discuss future plans and answer questions about submitting articles for publication. Demonstrations of the electronic manuscript submission system and the journal web site are available upon request. Free copies of the “Guide to Writing for Obstetrics & Gynecology” will also be available.

EXHIBIT INFORMATION
More than 300 pharmaceutical companies, equipment manufacturers, medical suppliers, EMR suppliers, recruiters, book publishers, health care providers and other organizations, including ACOG, will be assembled in the San Diego Convention Center for the largest exhibition in the country for obstetricians and gynecologists and related health care professionals. The exhibit hall will offer numerous companies displaying the latest products, services and instruments available in the field of obstetrics and gynecology for your review. Please schedule some time to walk through the exhibit hall and take advantage of this rare grouping of exhibitors.

EXHIBITS LOCATED: Halls D-F
San Diego Convention Center

EXHIBIT HOURS
The official hours of the Exhibit Hall are:
- Monday, May 7 ■ 10:30 AM-5:00 PM
- Tuesday, May 8 ■ 10:00 AM-4:00 PM
- Wednesday, May 9 ■ 10:30 AM-3:00 PM

ACOG has also created dedicated exhibit time on Monday and Tuesday, May 7 and 8, from 12:00 PM to 1:30 PM. During these times, no other activities will take place and all attendees will be encouraged to visit the exhibit hall.

Children are Not Allowed in the Exhibit Hall
For the protection of your children and in order to maintain the scientific nature of the display, no children under the age of 18 (with the exception of infant carried in body harness at all times) will be allowed in the exhibit hall during show hours, installation or dismantling of exhibits. Strollers are not permitted in the exhibit hall at any time. The College does offer a Convention Camp, a special service tailored just for the children of Congress and College members. Any questions about the camp should be directed to registration@accentoca.com.
GENERAL INFORMATION

PRESIDENTIAL INAUGURATION AND CONVOCATION
James T. Breeden, MD, will be installed as the 63rd President of the American Congress of Obstetricians and Gynecologists and the American College of Obstetricians and Gynecologists on Wednesday, May 9, at 9:00 AM in the Ballroom. After the induction of new Fellows, Dr. Breeden will deliver his inaugural address. Professional attendee registrants and their spouses/guests are invited to attend this ceremony.

INDUCTION OF NEW FELLOWS
New Fellows will be inducted during the Annual Presidential Inauguration and Convocation Program on Wednesday, May 9, at 9:00 AM in the Ballroom, at the San Diego Convention Center. Fellows from the classes of 2010, 2011, and January 2012 will be invited to participate. All will receive invitation letters from the Congress. We hope this will allow more of our new Fellows to enjoy the recognition they deserve. Professional attendee registrants and their spouses/guests are invited to attend this ceremony. Please be in your seats by 8:45 AM.

INTERNET/E-MAIL STATIONS
For your convenience, Internet/e-mail stations are available in designated areas throughout the San Diego Convention Center.

MOTHER’S LOUNGE
ACOG has set aside a room at the San Diego Convention Center for mothers who are nursing. Breast pumps and individual kits will be available for those who need this service. The room is available from 8:00 AM to 5:00 PM on Saturday, May 5, through Wednesday, May 9. The Mother’s Lounge equipment is provided free of charge to ACM attendees.

ACOG GOVERNMENT AFFAIRS ADVOCACY IN ACTION BOOTH
ACOG’s Department of Government Affairs lobbies for you in the US Congress and the Statehouses. Stop by the ACOG Government Affairs booth, next to ACOG Registration, and learn our top legislative priorities, discover ACOG’s resources available to you and become a member of our advocacy team today!

PHOTOGRAPHER
A professional photographer will be available to schedule appointments beginning on Sunday, May 6, in their studios located in the San Diego Convention Center. Portraits may be posed for in the studio on Monday, May 7, Tuesday, May 8, and on Wednesday, May 9. Wednesday is the photographer’s busiest day, so please make plans to be photographed on Monday or Tuesday. Studio time will be announced later.

SENIOR AND FOUNDING FELLOW LOUNGE
The Senior and Founding Fellow Lounge will be open Monday and Tuesday, May 7 and 8, from 8:00 AM to 5:00 PM and on Wednesday, May 9, from 8:00 AM to 2:00 PM. We welcome all Senior and Founding Fellows to come to the San Diego Convention Center to enjoy light refreshments while relaxing or catching up with friends.

SHUTTLE BUS SCHEDULE
Continuous shuttle bus transportation to the San Diego Convention Center has been arranged from May 5 to May 9, 2012.

SPEAKER READY ROOM
The Speaker Ready Room will be located in the San Diego Convention Center. This room will be fully staffed with technicians to help you with your presentation.

DONORS LOUNGE
The Donors Lounge is available to Presidents, Beacham, and Reis Society Members. The Lounge offers a private space to dine, check emails, and visit with colleagues. Society Members are welcome Monday (8:00 AM to 5:00 PM), Tuesday (8:00 AM to 5:00 PM), and Wednesday (8:00 AM to 3:00 PM). The lounge is located in the San Diego Convention Center.

If you would like to become a member, or renew your membership, you may do so while completing your online Annual Clinical Meeting registration or by contacting Katie O’Connell at (202) 863-2546/koconnell@acog.org to make a gift.

LOCAL HOST BOOTH
Located in the registration area at the San Diego Convention Center, this booth will be available to get local San Diego dining and attraction information.

WORSHIP SERVICE
The College is pleased to offer a nondenominational worship service on Sunday, May 6, from 7:00 AM to 8:00 AM at the Hilton San Diego Bayfront Hotel. (Headquarters Hotel)

TRAVEL INFORMATION
MacNair Travel Management has been appointed as the official travel agency for the 60th Annual Clinical Meeting. Tickets must be issued at least 7 days before departure to qualify for discounted rates. Call MacNair Travel Management at 1-877-760-5118 or email acog@macnairtravel.com and identify yourself as an ACM attendee. Delta Air Lines is offering discounted fares from 2% to 10% off published airfares. These discounted airfares are in effect when ticketed between 30 days and 7 days in advance of the meeting and when booking through MacNair or directly with Delta. Application surcharges, taxes, and fees will be added. MacNair agents are available Monday through Friday, 8:30 AM - 7:00 PM Eastern Standard Time. If you call the Delta Meeting Network directly at 1-800-328-1111, please refer to Meeting Code NM84Z. These discounted airfares are not available if you book through your own travel agency.
SPECIAL EVENTS

You must be registered for the meeting to attend these events. All events are held at the Hilton San Diego Bayfront Hotel, unless otherwise noted.

FUN RUN/WALK (EV01)
Date: Sunday, May 6
Time: 6:00 AM - 8:00 AM
Cost: $15 donation per person

The Promise Walk/Run will take place on Sunday, May 6, and all ACM registrants and guests are invited to participate. The race will take place along the San Diego Bay, and will begin (and end) in back of the Hilton San Diego Bayfront Hotel (which will serve as the Headquarters Hotel for the ACM). There will be a $15 donation fee and all proceeds from the event will benefit the Preeclampsia Foundation. First place winners in the male and female categories will receive unlimited access to the Donor Lounge at the San Diego Convention Center, and a free registration to the 2013 Annual Clinical Meeting in New Orleans, Louisiana. Second place winners will receive their choice of one free luncheon conference ticket for Monday and one free luncheon conference for Tuesday, subject to availability.

WELCOME RECEPTION (EV02)
“SOUTHERN HOSPITALITY IN SOUTHERN CALIFORNIA”
Date: Sunday, May 6
Time: 7:00 PM – 9:00 PM
Location: The Hilton San Diego Bayfront Hotel
Cost: Complimentary to Registrants

Come and renew old friendships or make new friends at this year’s Welcome Reception. The Welcome Reception is the perfect time to relax and reconnect. Light hors d’oeuvres and beverages will be served.

There will be a designated area for children.

Bus transportation will be available from certain ACM hotels that are not within walking distance of the Hilton San Diego Bayfront Hotel.

“TALKING TO YOUR CHILDREN ABOUT SEXUALITY” (EV03)
Date: Monday, May 7
Time: 10:00 AM – 12:00 PM
Location: The Hilton San Diego Bayfront Hotel
Cost: Complimentary
Speakers: Barbara Huberman, Director, Education and Outreach, Advocates for Youth

The teen birth rate for girls aged 15-19 years decreased by 9% between 2009 and 2010, from 37.9 births per 1,000 to 34.3 per 1,000. This is the largest decline recorded in a single year since 1946-47. Teen birth rates are now at their lowest levels since efforts to track teenage childbearing began. While this is an encouraging trend, more needs to be done. Nearly half of all high school students report having had sexual intercourse with over one-third reporting current sexual activity. Yet, only 61 percent report condom use at last intercourse, and a mere 20 percent report birth control pill use. It is, therefore, essential that parents talk with their children about sex, sexuality, risky behaviors, and how to become a responsible adult. Are you a parent? If so, then please join our 2-hour seminar as we discuss ways to become more comfortable talking with your children about sexuality. Learn what to say and when to say it! Early registration is strongly encouraged. Spouses are welcome.

THE DR. SCOTT AND THE HONORABLE DR. NAN HAYWORTH JUNIOR FELLOW COURSE “PREPARING FOR LIFE AFTER RESIDENCY” (EV04)
Date: Monday, May 7
Time: 1:00 PM – 5:00 PM
Location: The Hilton San Diego Bayfront Hotel
Cost: $25 per person (Open to Junior Fellows)

Afternoon seminar examining options and issues for life after residency, office-based malpractice issues including tips on what to do when sued, how to negotiate finance and work/life balance, the Business of Medicine, and an interactive panel for generalists or subspecialists. Discussion will include general requirements and rules about applying to a subspecialty training program and the interview and application process. Also, please join us for the Medical Student/Junior Fellow Reception to round out the session!

MCCAIN FELLOWS LUNCHEON (EV05)
Date: Monday, May 7
Time: 12:30 PM – 1:45 PM
Location: The Hilton San Diego Bayfront Hotel
Cost: $15 per person

Come join ACOG’s distinguished McCain Fellows for an always engaging, dynamic discussion of real-life legislative battles—lessons learned and the keys to success. Federal and state legislation affects your practice and our specialty as never before. Find out what’s in store for you, your practice and your patients. Learn how to get involved and make your action count. Participants will learn the latest news that matters to you from Fellows and experts working to advocate ob-gyn issues on Capitol Hill and in the statehouses.

EVENT FOR ALL SPOUSES/PARTNERS
“A CELEBRATION OF FRIENDSHIP AND FOOD” (EV06)
Date: Monday, May 7
Time: 1:00 PM – 3:00 PM
Location: The San Diego Wine and Culinary Center
Cost: $15

Join Dr. Gloria Howard Martin, wife of President James Martin Jr, MD to celebrate “friendship and food” at this interactive and entertaining luncheon. Enjoy a demonstration from the culinary chef while you create your own unique salad dressing in small mason jars to take home. After lunch, each small group will work as a team to create a masterpiece dessert! You do not want to miss this lively hands-on activity.

We hope you will join Dr. Martin and spouses of all former ACOG presidents for this fun event! Early registration is strongly recommended.
SPECIAL EVENTS

MEDICAL STUDENT, JFCAC, AND YOUNG PHYSICIAN RECEPTION

Date: Monday, May 7
Time: 5:30 PM – 7:00 PM
Location: The Hilton San Diego Bayfront Hotel
Cost: Complimentary to Registered Medical Students and College and Congress Officers and Young Physicians

To promote interest in women’s health, the American Congress of Obstetricians and Gynecologists is sponsoring a reception for medical students, Junior Fellow officers, and Young Physicians at the Annual Clinical Meeting. All officers of the College and Congress are also invited.

YOUNG PHYSICIANS BREAKFAST FORUM - (EV07)

Date: Tuesday, May 8
Time: 7:00 AM – 8:30 AM
Location: The Hilton San Diego Bayfront Hotel
Cost: $15 per person

The definition of a young physician is a Fellow who is 40 years of age or younger who is within the first 8 years of Fellowship. This will be an opportunity to network with other young physicians and to learn how you can become actively involved in ACOG policy development.

ADOLESCENT PREGNANCY PREVENTION LUNCHEON - (EV08)

Date: Tuesday, May 8
Time: 12:30 PM – 1:45 PM
Location: The Hilton San Diego Bayfront Hotel
Cost: $15 per person
Speaker: Naomi Tepper, MD, MPH
Division of Reproductive Health, Centers for Disease Control and Prevention

The teen birth rate for girls aged 15-19 years decreased 9% between 2009-2010, from 37.9 births per 1,000 to 34.3 per 1,000. This is the largest decline recorded in a single year since 1946-47. Teen birth rates are now at their lowest levels since efforts to track teenage childbearing began. Comprehensive efforts to continue this decrease are needed and health care providers can help. Guidance from a health care provider can greatly enhance a teen’s ability to avoid an unintended pregnancy and facilitate her healthy transition to adulthood. Please join us at the Adolescent Pregnancy Prevention Luncheon to learn more about the efforts of the Centers for Disease Control and Prevention (CDC) to reduce teen pregnancy. Teen pregnancy has been deemed to be one of the CDC’s top “winnable battles,” so come to the luncheon and help us win this battle! Early registration is strongly encouraged. Spouses are welcome.

SPECIAL SESSION ON MATERNAL AND CHILD MORTALITY - FEATURED SPEAKERS: MS. CHRISTY TURLINGTON-BURNS AND MRS. TONYA LEWIS LEE - (EV09)

Date: Tuesday, May 8
Time: 3:00 PM – 4:00 PM
Location: San Diego Convention Center
Cost:* Complimentary (BUT REGISTRATION IS REQUIRED)

THE PRESIDENT’S PARTY – (EV10)

Date: Tuesday, May 8
Time: 6:30 PM – 10:00 PM
Location: The San Diego Air and Space Museum
Cost:* Adults - $90
Residents - $75
Children age 7 and up - $35
Children less than 7 years - Complimentary

Join President James Martin, MD, and his wife, Gloria, along with the Executive Board members for a fun and educational evening at the San Diego Air and Space Museum. Climb aboard for a journey to your future with flight simulators and a 4/D theater. Cost includes dinner. Cash bar will be available. Shuttles will be available from all hotels in the College block.

*Tickets will not be available on-site.
REGISTRATION INFORMATION

REGISTRATION PROCEDURES
All attendees must register for the Annual Clinical Meeting (ACM). Advance registration saves time and money, and guarantees you the largest selection of postgraduate courses, clinical seminars, luncheon conferences, brown bag seminars and interactive sessions.

Registration is an online process. You may visit our web site at http://www.acog.org/acm to access online meeting registration and housing reservations. If you need assistance with registration, please contact the registration service at:
Fax: (301) 694-5124 / (888) 772-1888, or
Email: acog@experient-inc.com

*One-day registration is available on-site only for ACOG members and physicians. Guests, exhibitors, press or others cannot register using this category. One-day registrants can attend sessions and purchase tickets only for events being held on the day they register. You will only be able to register in the one-day registration category on-site starting Saturday, May 5, 2012.

**This registration category, for Practice Managers and Office Staff, allows them to enroll in Postgraduate Courses SA607 and SU606, and allows them access to Annual Clinical Meeting privileges that are available to all other registration categories.
REGISTRATION INFORMATION

REGISTRATION CATEGORIES

ACOG Fellow (RG01): Must be a physician when you register whose professional activity is devoted to the practice of obstetrics and/or gynecology. Practicing board certified obstetrician-gynecologists within the geographic confines of ACOG may apply for membership under this category.

ACOG Junior Fellow in Practice (RG02): Must be an obstetrician-gynecologist when you register who is a recent graduate from an approved residency program. Junior Fellowship is also available to physicians in Argentina, Central America, Chile, Dominican Republic, Mexico, and the West Indies.

ACOG Junior Fellow in Training (RG03): Must be an obstetrician-gynecologist resident in an approved program (United States and Canada) when you register. Junior Fellowship registration is also available to residents in Argentina, Central America, Chile, Dominican Republic, Mexico, and the West Indies.

ACOG Life Fellow/Fellow Senior Status (RG04): Life Fellow is a Fellow who has fully retired with completion of 25 years of active Fellowship; or is fully retired from any professional activity, and is age 65 years or older when you register. Fellow Senior Status is a Fellow who has completed 20 years of active Fellowship and is no longer practicing full time in any professional activity.

ACOG Associate Member (RG05): Any physician who has given valuable service in obstetrics and/or gynecology and who is not eligible to be a Fellow when they register. Practicing board certified physicians of other specialties in the geographic confines of ACOG may apply for membership under this category. Practicing osteopathic board-certified ob-gyn physicians in the geographic confines of ACOG may apply for membership under this category. Practicing non-board certified obstetrician-gynecologists in the geographic confines of ACOG may apply for membership under this category.

Educational Affiliate (RG06): Any physician in a medical education or training program that would not qualify for physician membership or a certified health care professional when they register. Applicants must provide patient care.

Resident, Non-ACOG (RG07): A graduate and licensed physician receiving training in a specialty in a hospital.

Physician, Non-ACOG (RG08): A physician who is not a member of the College and who provides direct women's healthcare clinical services to patients.

Other Health Care Professional (RG09): An individual who provides hands-on, direct patient healthcare services or is engaged in women's healthcare research and who is not in any of the membership categories of the College or is not a physician. These individuals may include, but are not limited to, nurses, midwives, physician's assistants, sonographers, radiology technicians, etc. This category does not include individuals who work for exhibiting companies.

Medical Student (RG10): An individual currently enrolled in medical school (MD, DO) at an accredited institution when they register. Not open to other types of students. Medical students must show identification from an accredited institution when their registration packets are picked up on-site.

Spouse/Guest (RG11): Is defined as a spouse, significant other, friend, or an adult child 18 years old or older who wishes to attend the meeting but does not wish to receive CME credits or cognates. A co-worker or an associate of an exhibitor does not qualify for the guest registration category. A Spouse or Guest is allowed to attend the Symposia Sessions, the Welcome Reception and to visit the Exhibit Hall, and they are eligible to purchase tickets for spouse/guest program activities. Registration must be indicated on the ACOG Advance Registration Form. Spouse/guest and adult family members who wish to register for courses and receive CME credits or cognates must register in the appropriate registration category listed above.

One-Day Registrant (RG12): One-day registration is only available on-site for ACOG members and physicians. Guests, exhibitors, press, or others cannot register using this category. One-day registrants can only attend sessions and purchase tickets for events being held on the day they register. One-day registration starts Saturday, May 5, 2012.

Practice Managers and Office Staff (RG13): This registration category, for Practice Managers and Office Staff, allows them to enroll in Postgraduate Courses SA607 and SU606, and allows them access to Annual Clinical Meeting privileges that are available to all other registration categories.
**REGISTRATION INFORMATION**

**SESSION FEES**
You must be registered for the ACM to register for any sessions. A ticket is required for all sessions and events you wish to attend. If conflicting sessions are requested, a selection will be made for you.

REGISTRATION INFORMATION

REGISTRATION DEADLINE
Deadline for receipt of advance registration is midnight, Friday, April 6, 2012. If your registration form is received on or after Saturday, April 7, 2012, you will be charged the on-site registration fee.

If you register in advance, your registration information, including your name badge, tickets, final program, and other information will be available at the Advance Registration counter, located in the San Diego Convention Center, during the following hours:

- Friday, May 4: 3:00 PM – 6:00 PM
- Saturday, May 5: 7:00 AM – 5:00 PM
- Sunday, May 6: 7:00 AM – 5:00 PM
- Monday, May 7: 7:00 AM – 5:00 PM
- Tuesday, May 8: 7:00 AM – 5:00 PM
- Wednesday, May 9: 7:00 AM – 12:00 PM

*ACOG Staff will be available to answer any questions until 3:00 PM

Please bring your confirmation with you on-site. This allows us to register you in a timely fashion.

CANCELLATION/REFUNDS
All cancellations or changes must be received, in writing, by Friday, April 6, 2012. Cancellations received by this date will receive a full refund, less a $50 processing fee. No refunds will be made for cancellations received after Friday, April 6, 2012, for any reason. Please mail, fax, or email your cancellation to the following address:

The College ACM Registration Department
P.O. Box 4088
Frederick, Maryland 21705
Fax: (301) 694-5124 / (888) 772-1888
Email: acog@experient-inc.com

BADGE CATEGORIES
Attendees will receive name badges of different colors based on the following:

- Fellow, Life Fellow, Fellow Senior Status, Junior Fellow in Practice, Junior Fellow in Training
- Associate Member/Educational Affiliate
- Resident, Non -ACOG/ Physician, Non-ACOG
- Other Health Care Professional
- Medical Student
- Spouse/Guest
- Exhibitor
- Exhibitor Guest Pass
- Staff and Vendors

REGISTRATION DEADLINE
Deadline for receipt of advance registration is midnight, Friday, April 6, 2012. If your registration form is received on or after Saturday, April 7, 2012, you will be charged the on-site registration fee.

EXPO (EXHIBIT HALL) CARDS
Your Expo Card will have a bar code. This bar code will make your interactions with the exhibitors more efficient. Each coded Expo Card contains the information that exhibitors need to register you with their company, and to ensure that you are identified correctly in their records.

EXPO (EXHIBIT HALL) CARDS
Your Expo Card will have a bar code. This bar code will make your interactions with the exhibitors more efficient. Each coded Expo Card contains the information that exhibitors need to register you with their company, and to ensure that you are identified correctly in their records.
HOTEL INFORMATION

Your registration form for the Annual Clinical Meeting (ACM) must be submitted in order to reserve a hotel room in the College room block.

The College ACM Registration Department will coordinate hotel reservations for the 2012 ACM. Reservations can be made via the Web: http://www.acog.org/acm; by telephone: (800) 686-7295 / (847) 996-5876; by fax (888) 772-1888 / (301) 694-5124; or by mail:

The College ACM Registration Department
P.O. Box 4088
Frederick, Maryland 21705

Please Note: Hotel requests will not be accepted directly by hotels. Please make your hotel reservations through the College ACM Registration Department no later than Friday, Friday, April 6, 2012. Special room rates cannot be guaranteed after this date or after the room block is filled.

Hotels in San Diego will sell out quickly. In order to safeguard your hotel reservation, a deposit in the amount of $310.00 (which will be applied to your stay) is required. Please provide credit card information (your credit card will be charged immediately upon receipt) or a check in US funds drawn on a U.S. bank made payable to the American College of Obstetricians and Gynecologists.

Please don't be a "no-show." If you cancel your registration for the ACM, please remember to cancel your hotel reservations. The College attempts to obtain the largest number of hotel rooms at the lowest possible rates; however, if the College has a significant no-show rate, hotels are reluctant to commit larger room blocks and offer lower rates. If a reservation is properly canceled, another ACM registrant can use the room.

CANCELLATIONS OR CHANGES
Cancellations or changes must be made in writing through the College ACM Registration Department on or before Friday, April 6, 2012, by fax: (847) 996-5876, email: acog@experient-inc.com, or mail: The College ACM Registration Department, P.O. Box 4088, Frederick, Maryland 21705. A new confirmation will be sent to you if changes or cancellations are made. Cancellation policies will be strictly enforced. Reservations must be cancelled at least 7 days prior to your scheduled arrival date; otherwise, you will forfeit your entire advance deposit.

If you are within 7 days of your arrival, cancel your reservation directly with your hotel. Please make sure to note your cancellation number, the name of the person you spoke with, and the date and the time. You will need this information in case of a discrepancy.

SHUTTLE BUS
The College is pleased to provide shuttle bus service for the 2012 ACM for all hotels in the College room block that are not within walking distance of the San Diego Convention Center. These buses will run continuously during all official ACM events.

REBATE DISCLOSURE
A portion of your room rate will be used to offset the College's cost for registration and shuttle bus services.

CITY TOUR AND OLD TOWN
Date and Time: Saturday, May 5, 1:30 PM-4:30 PM
Walking: Moderate - Comfortable shoes and clothing are recommended.
Cost: $40 per person

San Diego, the second largest city in California, is filled with rich history, world-class attractions, beautiful beaches and bays, and charming, eclectic neighborhoods. Board a deluxe motor coach, sit back and relax as your knowledgeable tour guide takes you through the famous sites of San Diego. From Old Town, to the Gaslamp Quarter, one of San Diego’s most eclectic areas, to the magnificent “island” of Coronado, this tour will provide you with a taste of it all.

Visit Old Town, the birthplace of California, on a self-guided walking tour that will take you past many historic venues. Replicas of old artifacts and recreations of historic buildings in Old Town State Historic Park offer a glimpse back in time. Then stroll through the Victorian-style Heritage Park to admire the historic houses, all of which were moved here by the Save Our Heritage Organization in an effort to restore the beautiful architecture.

Whether you’ve been to San Diego before or not, this is a great way to immerse yourself in the California culture and learn about the many facets that make up this peaceful paradise of a city.
*ADA Accessible and Family Friendly

CORONADO WALKING TOUR
Date and Time: Sunday, May 6, 9:00 AM – 1:00 PM
Walking: Moderate - Comfortable shoes and clothing are recommended.
Cost: $50 per person

Rich in history, natural beauty and a charming ocean village atmosphere, Coronado is most deserving of its royal nickname - the Crown City. Bordered by the Pacific Ocean, Glorietta Bay and San Diego Bay, this picturesque seaside city is linked to the Southern California coastline and the city of San Diego by the graceful and stately San Diego Coronado Bridge, and to the south by a narrow strip of land known as the Silver Strand.

Enjoy Coronado’s beautiful architecture and colorful history during a narrated walking tour. Beginning at the Hotel del Coronado’s clock tower, “The Del,” more than 100 years old, sits on one of the most beautiful beaches along the Pacific Ocean. Her guest book reads like a “Who’s-Who” history book and has been the setting for many famous movies.

Next, visit Wallis Simpson’s home (the Duchess of Windsor); the home of Frank Baum, author of the “Wizard of Oz”; the sugar magnate John Spreckels’ Mansion; and other notable celebrities. Time is allowed to browse among the quaint shops, cafes and galleries along Orange Avenue or to take a stroll along the sandy beach, the best seashell beach in San Diego. Whatever the choice, exploring the island is a relaxing way to spend the day.
*ADA Accessible
SPOUSE/GUEST TOURS

LA JOLLA WITH BIRCH AQUARIUM
Date and Time: Sunday, May 6, 10:00 AM – 3:00 PM
Walking: Moderate - Comfortable shoes and clothing are recommended.
Cost: $60 per person

Journey to the seaside community of La Jolla, “the jewel” of San Diego, and visit the scenic coastal village and the spectacular Birch Aquarium, perched on the bluffs overlooking La Jolla.

The Birch Aquarium, interpretive center for Scripps Institution of Oceanography, presents the underwater world of sea creatures in realistic habitats. Experience the frontiers of marine science through interactive exhibits featuring both shore and ocean studies which provides a fascinating insight into our mysterious, underwater world.

Then, take in the beautiful views of the coastline as you travel into the village, the heart of La Jolla. La Jolla is an exquisite combination of a Mediterranean resort atmosphere and Southern California fun. This picturesque neighborhood is filled with international art galleries, trendy boutiques, designer shops, casual cafes and fine dining. Time is allotted to browse through shops and galleries along Prospect Street or enjoy lunch at a café overlooking the ocean.

*Cities Accessible and Family Friendly

KAYAKING AT LA JOLLA
Date and Time: Sunday, May 6, 1:00 PM – 5:00 PM
Walking: Extensive Activity
Cost: $80 per person

One of the most appealing aspects of La Jolla is its natural beauty. Enjoy the magnificent views from your own kayak as you paddle your way along the shoreline. From atop your kayak, you may catch a glimpse of harbor seals, sea lions and orange garibaldi swimming nearby. Take in the interesting sea life and breathtaking views all around and explore the La Jolla Sea Caves. Then paddle to the amazing kelp forest and ecological reserve. Wet suits are included.

The ratio of guests to guides is 10 to 1. Ratio can be increased upon clients’ request for an additional fee. Guests are required to sign release of liability prior to participating in this event. It is the guest’s responsibility to secure beach towels from the hotel, as guests will get wet on this tour. Guest’s height and weight is required two weeks before tour.

CITY TOUR LAND AND SEA
Date and Time: Monday, May 7, 8:30 AM – 1:30 PM
Walking: Light
Cost: $62 per person

San Diego’s majestic beauty is unparalleled. With a multitude of unique and wonderful attractions and communities, this is truly “America’s Finest City.”

Begin this unique tour aboard a deluxe motor coach as your knowledgeable tour guide takes you through the famous sites of San Diego, including Old Town, Balboa Park, and the Gaslamp Quarter. Next, head to the docks and enjoy a narrated cruise through 21 miles of scenic waterways. You’ll hear about the rich history of this port city, get an inside glimpse of the port and naval activities, view picturesque Harbor and Shelter Islands, Point Loma (home of the Cabrillo Monument) and the magnificent Coronado Bay Bridge.

*Family Friendly

ORFILA VINEYARDS & WINERY
Date and Time: Monday, May 7, 1:00 PM – 5:00 PM
Walking: Moderate
Cost: $52 per person

Enjoy a tour and wine tasting at one of San Diego’s most beautiful wineries. The San Pasqual Valley provides one of the most magnificent settings for your afternoon in San Diego County. With its location atop a hill, overlooking the vineyards and the Valley, Orfila Vineyards & Winery shares the winemaking process first-hand as you enjoy wines from the location where California’s first vineyards (Vitis Vinifera) were planted 200 years ago.

*Includes lunch
EVENING HARBOR CRUISE
Date and Time: Monday, May 7, 6:00 PM - 10:30 PM
Walking: Light
Cost: $165 per person

All Aboard! Embark on a harbor cruise with a lavish dinner, music, and dancing while you enjoy the sights and sounds of the San Diego Bay. Begin with cocktails on deck with the upbeat music of a disc jockey jazzing things up. Then indulge in a mouthwatering 3-course meal.

The best way to experience the San Diego Skyline is on one of these wonderful ships. Cruise past the magnificent Coronado Bay Bridge, Seaport Village, historic warships, and see the festive lights adorning the city at night.

GASLAMP WALKING TOUR
Date and Time: Tuesday, May 8, 9:00 AM - 12:00 PM
Walking: Heavy - Comfortable shoes and clothing are recommended.
Cost: $48 per person

From booming to dilapidated and back to flourishing, the Gaslamp Quarter has gone through many transformations. On this narrated walking tour, you'll get a glimpse of the Victorian architecture of some of the oldest buildings in town, view fine art galleries, eclectic cafes and restaurants, all while hearing tales of the Quarter's colorful history. Visit the William Heath Davis house, the oldest wooden structure in downtown San Diego and later home to Alonzo Horton, San Diego's “founder.” The tour ends at the Horton Grand Hotel where you will enjoy a classic English afternoon tea with refreshments.

SAN DIEGO ZOO
Date and Time: Tuesday, May 8, 10:00 AM - 3:00 PM
Walking: Extensive - Comfortable shoes and clothing are recommended.
Cost: $90 per person

The World Famous San Diego Zoo, spanning 100 acres inside Balboa Park, has uniquely manicured landscaping with authentic animal habitats, meandering pathways, waterfalls, and tropical plants and is home to more than 1,600 animals and 6,500 plant species. Featured attractions include the elusive and cuddly Pandas, visiting from their native China and Sumatran Tigers. A day at the zoo offers endless possibilities to get to know the animals. Board an open-air safari bus and enjoy a 35-minute narrated tour, which encompasses 80% of the Zoo’s sprawling canyons and mesas. This is a fabulous way to meet a variety of animals, ranging from the tallest giraffes to the smallest meerkat. Proceed on foot and catch a ride back on the Skycrane Tram that offers great views of the Zoo and Balboa Park. Look down on Gorilla Tropics and wave hello!

TORREY PINES
Date and Time: Tuesday, May 8, 9:00 AM - 1:00 PM
Walking: Extensive - Comfortable shoes and clothing are recommended.
Cost: $54 per person

Enjoy an invigorating day of hiking in the scenic Torrey Pines State Reserve, and admire the beautiful Pacific Coast. Perched high atop the bluffs overlooking the Pacific Ocean, Torrey Pines State Reserve features breathtaking views, superb trails and the gnarled, twisted, rugged Torrey Pine tree. The land has been preserved in its natural state since before the development of the city surrounding it. There are miles of trails here with rare pine trees called Torrey Pines or Pinus torreyana, beaches, the chaparral plant community, and a lagoon used by migrating seabirds. This is a morning of unparalleled scenery and invigorating exercise. Bottled flat water is included. Guests are required to sign release of liability prior to participating in this event.

CAMP ACOG AND YOUTH TOURS

Members with children can participate in Camp ACOG, a special service created exclusively for the children of ACOG members. Headquartered at the Hilton San Diego Bayfront Hotel, Camp ACOG welcomes infants from 6 months of age through teens of 15 years. A $20.00 non-refundable administrative fee guarantees your child’s place in Camp ACOG. Lunch ($15.00) may be purchased, in advance, for Camp ACOG.

Camp ACOG is proud of its camper/counselor ratio, so please be as specific as possible with regard to drop off and pick up times so that we can ensure our high-standard of staffing. Extended childcare is available for children in need of supervision before or after camp hours, so please indicate any additional time needed in the pre/post tour space. Deadline for early registration is April 13, 2012. Space is limited, so please plan ahead! Any registration form received after that date will be processed on a space-available basis, and will be charged an additional fee of $5.00 per child/per day for camp, and an additional $5.00 per child per tour. No-shows will not receive refunds.

Any questions about Camp ACOG should be directed to:
Camp ACOG/Accent Convention Camp
ACCENT on Children’s Arrangements, Inc.
615 Baronne Street, Suite 303
New Orleans, LA 70113

Phone (504) 524-0188
Fax (504) 524-1229
Email: registration@accentoca.com

Hours of operation for the children’s center, headquartered at the Hilton San Diego Bayfront Hotel, will be:

- Saturday, May 5: 7:30 AM – 5:30 PM
- Sunday, May 6: 7:30 AM – 5:30 PM
- Monday, May 7: 7:30 AM – 5:30 PM
- Tuesday, May 8: 7:30 AM – 5:30 PM
- Wednesday, May 9: 7:30 AM – 5:30 PM

The registration form for the children’s program is included on page 79. Pre-registration is required to assure adequate staffing. On-site registration for child care and youth field trips may be accommodated on a space-available basis.

WELCOME TO SAN DIEGO - SAN DIEGO CITY TOUR AND BIRCH AQUARIUM

San Diego, the second largest city in California, is filled with rich history, world-class attractions, beautiful beaches and bays, and charming, eclectic neighborhoods. Board a deluxe motor coach, sit back and relax as your knowledgeable tour guide takes you through the famous sites of San Diego. From Old Town, to the Gaslamp Quarter, one of San Diego’s most eclectic areas, to the magnificent “island” of Coronado, this tour will provide you with a taste of it all.

Next we will visit the Birch Aquarium, interpretive center for Scripps Institution of Oceanography, which presents the underwater world of sea creatures in realistic habitats. Experience the frontiers of marine science through interactive exhibits featuring both shore and ocean studies which provides a fascinating insight into our mysterious underwater world.

Date and Time: Saturday, May 5, 10:00 AM – 4:00 PM
Cost: $78 per child

*NOTE: Because traffic is unpredictable, the field trip return times may be delayed.

YOUTH TRIP OPTIONS

A special program of off-site tours has been designed for children ages 6 years and older. The costs are specified below and must be accompanied by an additional $10 administrative charge per child per tour. Lunch is included with off-site tour activities. These exciting, educational tours sell out quickly so advance registration is strongly encouraged. Tours will return to the children’s activity center located at the Hilton Bayfront Hotel where children will be supervised until 5:30 PM.

- WELCOME TO SAN DIEGO - SAN DIEGO CITY TOUR AND BIRCH AQUARIUM
CAMP ACOG AND YOUTH TOURS

EXPLORATION EXTRAVAGANZA - LEGOLAND
Today, just a short ride outside the city, we’ll enjoy a day of discovery at the LEGOLAND Park. There are rides, displays, interactive exhibits, and numerous shows here. Within the exhibits, you can be a different kind of hero, from a firefighter to a knight to an explorer!

Get into a “dino-rific” mood when you ride the Coastersaurus, which twists and turns around dinosaurs that are made out of LEGOS. You can act like a paleontologist by digging in the Explore Village where various dinosaur “fossils” are buried deep beneath the sand surface. Or head to the Dragon ride where you can play a knight and brave the fire-breathing dragon that looms in the castle nearby. If you go on the Safari Trek, you will be able to see life-sized animals made entirely out of LEGOS! And, take a drive in your own car in Fun Town before heading out on the Fun Town fire truck to hose down a fire.

This Exploration Extravaganza is one day of extreme and “heroic” fun you won’t want to miss! Lunch is included.

Date and Time: Sunday, May 6, 10:00 AM – 4:00 PM
Cost: $105 per child

UNDERWATER ADVENTURES - SEA WORLD ADVENTURE PARK
Get prepared for a front-and-center spectacle of awesome proportions! Today, we’ll experience all the thrills, chills, wonders, humor, and excitement that the nautical world has to offer. SeaWorld is full of animal adventures, and Shamu – the famous killer whale – is just one of the exciting highlights of the park…

We’ll dive for cover as killer whales leap, splash and perform aerial acrobatics right in front of our eyes. We’ll brave the underwater tunnels as scores of sharks and swarms of moray eels surround us, and barracuda and lionfish drift closer, all while we are safe on the other side of the glass.

After our close encounters with the dangerous underwater creatures, we’ll witness loony adventures and sidesplitting fun as we join otters, walruses and more, solving mysteries and learning about the importance of conservation. And we’ll laugh alongside comical penguins and playful polar bear cubs as they swim, slide, and dive in chilly contentment. Let the adventure begin! Lunch is included.

Date and Time: Monday, May 7, 10:00 AM – 4:00 PM
Cost: $118 per child

A WALK ON THE WILD SIDE - THE SAN DIEGO ZOO
Balboa Park is the world’s largest urban cultural park. Within its boundaries lies the famous San Diego Zoo where a world of fun and discovery awaits us. Here, you can see the pandas chomping on shoots and see some of the 4,000 rare birds, mammals, reptiles and amphibians that dwell in beautiful natural settings.

Along with 100 acres of award-winning gardens, exhibits like Gorilla Tropics, Hippo Beach, Tiger River, and Polar Bear Plunge illustrate different regions of the globe. In Tiger River, the petting zoo and animal shows are guaranteed to inform and entertain, and Camp ACOG will do it all in style. Take a walk on the wild side! Lunch is included.

Date and Time: Tuesday, May 8, 10:00 AM – 4:00 PM
Cost: $90 per child

MUSEUM MADNESS - REUBEN H. FLEET SCIENCE CENTER AND THE AIR AND SPACE MUSEUM
Begin the day with a visit to the Reuben H. Fleet Science Center in Balboa Park. With a tour of this exciting Science Center, you’ll have the chance to learn about all things scientific – from the science of seeing to the science of aging to the achievements of NASA! The interactive exhibits and rides will get your imagination churning as you make new discoveries. It will be one adventure that you’ll love “navigating.” As a special treat, you’ll get to see an IMAX film.

Following the Science Center, you’ll head to the Air and Space Museum, also in Balboa Park, to learn about flight and to get transported all the way into space! Learn about the stars, rockets, and space – and the scientists who discover it all.

Have you always wanted to be a scientist, pilot, or an astronaut? Now’s your chance to get a head start and delve into the wonderful world of science and flight. So buckle up and get ready to fly! Lunch is included.

Date and Time: Wednesday, May 9, 10:00 AM – 4:00 PM
Cost: $75 per child
CAMP ACOG AND YOUTH TOURS

2012 REGISTRATION FORM

Deadline for early registration is April 13, 2012. Space is limited, so please plan ahead! See page 77-78 for details. Any registration form received after that date will be processed on a space-available basis, and will be charged an additional $5.00 per child/per day for camp, and an additional $5.00 per child per tour. No-shows will not receive refunds. The hours for Camp ACOG are 7:30 AM - 5:30 PM. On the form below please include your pick-up and drop-off times.
